HOOVER BACKERS ARE CONFIDENT

PACIFIC FLIERS PLAN LAST HOP THIS AFTERNOON

Will Would Want Plane Handy When Near Hungry Fijis

(Special To The News)

BEVERLY HILLS, June 6.—When four men in a three-motored plane, and carrying all that gas, can fly 3,200 miles over the ocean in one hop and keep in communication with the world every minute of the time, why aviation has really arrived.

If I went to the Fiji Islands, that's how I would want to land, in a plane, and be ready to get away in case they looked hungry.

Yours,
WILL.

PA NEWC OBSERVES

This is a day of mingled joy and sadness for the army of New Castle school children—joy to some that a vacation period has arrived once more, and sadness to others because they have completed forever their public school education course. New Castle schools closed this morning for the summer vacation. High school commencement will take place tonight in the Scottish Rite Cathedral.

Sheridan avenue, one of the newly paved streets on the North Hill, has been thrown open to traffic and is being used to a considerable extent by traffic. The street connects Highland and Mercer streets, is paved with concrete, and appears to be an excellent job. It certainly has improved the street and district wonderfully.

Up in the wilds of Wallace and Mercer streets this morning, a large squirrel was noted scampering about on the streets. It was quite tame and seemed little to fear passing traffic.

Rains of the past few days have filled up the small country streams, and most of them today have the appearance of good sized creeks. The rain was badly needed in the farming areas, and has done much good for the crop development, farmers report.

The day is arriving when the class donor stunt for graduating classes of the New Castle high school will have to be curtailed or eliminated. Trying to find humorous gifts for 300 youths and lassies and presenting them at one program is a colossal task.

Great plans have been made for the observance of the first dairy field day in the county, scheduled for Volant tomorrow, and indications are that some hundreds of farmers will attend. As an extra feature of the day, Dr. C. G. Jordan, state secretary of agriculture, will come to his home community and make an address during the afternoon.

There are many things a reporter could write about. He could write about the rain in the little gulch they call Washington street, and he could write about the people who hurry along in the rain, bent on petty businesses, hurrying here, hurrying there, getting nowhere. Or he could write about the old man who lives on the South Side; the man who spends his time in fighting over again the Franco-Prussian war. He could write about how the city looks from the alleys. But, no one would understand.

A staunch defender of the young idea is Ira Ramsey. The discussion was about 300 or more who will be belched out on the unsuspecting world this evening, when the class of 1928, New Castle High school, is graduated. "Yes, I have always contended," he mused, "that they are much more intelligent now than they will be in 30 or 40 years from now."

The rainy season of the past few days came in at the same time as daylight savings in New Castle, so that the base ball enthusiasts have had no opportunity to enjoy the extra hour of daylight, as yet. No games were played on Monday or Tuesday evenings, because of rain.

Four Intrepid Pacific Fliers Prepare To Leave Suva For Brisbane, Australia

WILL PASS OVER STORM CENTER

Small Islands Strewn Along Path Of Next Hop May Afford Landing If Necessary

(BULLETIN)
(International News Service)

SUVA, June 7.—Barring a last minute change in plans, the plane Southern Cross will hop today from Albert Park to Nsselai Beach at 11 a. m. (3 p. m. Pacific Coast time June 6).

Revising his plans, Captain Kingsford-Smith announced that all three of his flying companions in addition to himself would be in the plane when it takes off from here for the beach from which it is to start its 1795 mile hop to Australia.

The hop off for Brisbane, Australia, will be made this afternoon at 3 p. m. (7 p. m. Pacific Coast Time June 6) if there is no mishap.

(Pacific Coast Time is three hours slower than Eastern Standard Time.)

Plans Complete For Convention

County Sabbath School Convention To Convene In Cathedral Thursday

EVENING BANQUET WILL BE FEATURE

At 9:30 o'clock, Daylight Savings time, tomorrow morning the host of Sabbath school workers will gather at the Scottish Rite Cathedral to hear Rev. F. B. McAllister, Dr. M. Hadwin Fischer, Rev. E. H. Bonsall, Rev. S. E. Irvine and other speakers who will take part in the splendid program of the 90th convention of the Lawrence County Sabbath school association.

From all indications the ladies adult classes will be on hand in large numbers for the rally at the afternoon session and will sit together in classes. The class having the best percentage of attendance present will be awarded a Christian flag. The men's adult classes will sit together at the evening session and they will also receive an attendance award of a Christian flag.

Banquet at 6:30.

The Christian Fellowship banquet at 6:30 p. m. Daylight Savings time will be a happy occasion. A limited number of tickets will be sold at the doors of the cathedral tomorrow for

Girl's Mother Would Join Atlantic Hop

(International News Service)

MEDFORD, Mass., June 6.—Miss Amelia Earhart may be the only member of the Earhart family that is ready for a trans-atlantic hop today but at least one other, Mrs. Amy O. Earhart, mother of the "Girl Lindy," wishes that she was also ready to wing her way through the ether to the Thames.

An exchange of telegrams between mother and daughter found each trying to cheer the other. Miss Earhart wired — "Don't worry. Everything is all right." The answering message from her mother read: "I am not worrying. Wish I were with you. Love."

RUSSIAN RELIEF EXPEDITION TO SEARCH FOR GEN. NOBILE

(International News Service)

MOSCOW, June 6.—The Soviet Ice-cutter Maligin, carrying an airplane and a searching expedition headed by Professor Viza, a famous Arctic authority, is expected to leave Archangel, Russia, Saturday to scour Franz Josef Land for General Umberto Nobile and the other seventeen members of the missing Italia expedition.

The expedition will establish an airplane base in the northwest region of Nova Zembla. The plane will reconnoiter from the base in an attempt to verify messages picked up by Russian radio stations, which stated that Nobile had made a safe landing on Franz Josef Land.

Professor Viza is thoroughly familiar with the geography and topography of Franz Land. He said today that Nobile knows of the existence of a cache of food supplies at Flora Cape, Franz Josef Land, and would probably locate it if his men lacked food.

The Ice-breaker Percey, which is now plying off the Murmansk coast, will be used by the expedition as a relay station.

Rescue officials are convinced of the authenticity of several messages, apparently from Nobile, picked up by Soviet radio stations but they are puzzled by the fact that Nobile did not give his exact latitude and longitude in any of them. However, they believe he was prevented from doing so by poor transmission.

Commencement For Senior High School Tonight

Class Of 300 To Receive Diplomas During Program At Cathedral

DR. EISENBERG TO DELIVER ADDRESS

Honor Students Share Program; Two Prize Awards Also To Be Made

Two hundred and ninety-eight seniors will receive diplomas at the 50th graduating exercises of the New Castle Senior High school for the members of the June division of the class of 1928, which will be held in the auditorium of the Scottish Rite Cathedral this, Wednesday, evening, June 6, at eight o'clock, daylight saving time.

Dr. J. Linwood Eisenberg, president of the Slippery Rock State Teachers College, will deliver the commencement address.

Two Prize Features

The invocation and benediction of the services will be pronounced by Rev. Philip C. Pearson, rector of the Trinity Episcopal church, and the valedictory and salutatory will be given by Miss Gertrude Potter and Miss Jennie Wygonoski, respectively.

A feature of the program will be the presentation of two prizes offered during the high school course by two local organizations. Miss Lucy Rosati will receive the Daughters of the American Revolution prize offered for the best essay on the subject, "The Frontier in the American Revolution", and Miss Virginia Slee will be presented the Business and Professional Women's Club prize for general excellence in English during her high school course.

Charles H. Young, president of the board of education, will present the diplomas, numbering nearly 300. Remarks will be made by Dr. C. C. Green, superintendent of city schools.

Music for the occasion will be rendered by the Senior High school orchestra. Special numbers will be rendered by two members of the class.

Evening Program

The complete program for the graduating exercises follows:

Wilkins And Byrd Will Work Together In South Pole Tour

No Race Anticipated As Polar Explorers Prepare For Journey To South Pole

(International News Service)

NEW YORK, June 6.—Captain George Wilkins will not race Commander Richard E. Byrd to the south pole when the two Antarctic expeditions start early next year, according to Dr. Isaiah Bowman, president of the American Geographical society. The society is cooperating with the explorers in their plans to survey the unexplored territory east of the ice barrier.

Captain Wilkins and Commander Byrd will cooperate with each other instead of staging a race to the pole, Dr. Bowman said in a statement issued here. Byrd plans to fly beyond the pole from the base of the ice barrier. Wilkins will not make a flight to the pole but will fly over the opposite side of the territory which Byrd intends to explore, according to Dr. Bowman.

TRADITIONAL AXE IS HANDED DOWN

About 300 In Class Taking Part In Exercises; Clever Work Is Shown

What is modestly conceded by 299 young men and women, to be the best class ever graduated from the New Castle Senior High school, held its class day exercises Tuesday evening in the Scottish Rite cathedral. It was playtime for the class of 1928 and forgetting the derivations of Latin verbs, and the date that King Alfred crossed the Rubicon or whatever it was King Alf did, they made merry for a couple of hours.

Nor was all the program foolishment. There was that class oration by John Brice, on "The Advancement of Aviation". It is typical of any

Felstead Wins English Derby At Epsom Downs

Outsider Races Home Victorious In World Famous Derby Classic Today

(BULLETIN)
(International News Service)

EPSOM, Eng., June 6.—More than a quarter of a million spectators, including most of the members of the royal family and hundreds of American tourists, saw Felstead, an outsider, with Jockey H. Wragg up, win the world famous derby on Epsom Downs this afternoon.

Flamingo ran second and Black Watch, one of the five favorites, finished third. Felstead paid 33 to one.

The "hot favorite" of the turf experts—Lord Derby's Fairway—failed to get within the money.

Friendship Is Ready For Hop Over Atlantic

Two Men And Girl Aviatrix Await Favorable Weather Reports At Trepassey Bay

PLANE IS GIVEN THOROUGH TEST

Miss Amelia Earhart Hopes To Be First Woman To Cross Ocean; Pontoons May Aid

(International News Service)

TREPASSEY, N. F., June 6.—At the first indication of favorable weather today the huge tri-motored Fokker monoplane Friendship was expected to soar from the harbor here on its flight across the Atlantic to England.

Miss Amelia Earhart, who hopes to be the first woman to span the Atlantic by air, and Wilmer Stultz, commander of the expedition, scanned all weather reports eagerly. However, it was reported these are not as favorable as the fliers hoped.

The Friendship tugged at its moorings through the night, with its tanks almost filled to capacity. An additional supply will be taken on just before the hop-off.

Thorough Inspection

Fueling of the Fokker monoplane was completed soon after dawn today. Pilot Stultz and Mechanic Louis Gordon put the last finishing touches on the big red and gold plane, inspected the motors, the wing supports, the fuselage and the landing gear and then announced: "We are all set to start."

Weather conditions were unfavorable early in the day, but the three flyers were hopeful that they would improve enough to permit a take-off

Confesses Theft In Eating House

Walter Lacombe, aged 30, claiming Flint, Mich., as his home, was arrested Tuesday by Detective C. G. Logan and Officer Thomas Lynch at his Beaver street rooming house, following the investigation made by the officers of the robbery, which had occured at the New Way Lunch the night previous.

When arrested Lacombe knew nothing about the robbery but when the officers took him to his room and after a search that seemed about to end in failure, found the money stolen from the New Way Lunch between some socks hidden under a dresser, he confessed.

He had attempted to draw his pay at one of the local tin plants where he had been working for the past six or eight weeks and also admitted to taking the $5.25 in cash from the register of the restaurant. He admitted that it had been his intention of leaving town and beating the proprietor of the New Way Lunch out of a board bill of $35 and his landlady out of a bill of $20. It was the proprietor of the restaurant, who had secured him a place to room and also fed him until he got on his feet, financially speaking.

He was taken before Alderman J. Lee Cooper this morning, where he was charged with breaking and entering by Chief of Police C. C. Horner. He entered a plea of guilty and was held for the present term of court.

Seven Children Killed In Crash

Auto Is Struck By Interurban Car Near Springfield, Ill., Last Night

SIX OF CHILDREN IN ONE FAMILY

(International News Service)

SPRINGFIELD, Ill., June 6.—An inquest was to be held today into the deaths of seven children, killed at Auburn, 12 miles south of here, last night when the automobile in which they were riding was demolished by an interurban car of the Illinois traction system.

Six of the little victims were members of one family, sons and daughters of Doren Brubaker, whose home is at Virden, near Auburn. The seventh victim was a child named Wiley, a playmate of the Brubaker family.

The motorman of the interurban car, northbound from St. Louis to Springfield, said the automobile paused at the crossing to let the interurban pass, then suddenly shot forward as though the driver had accidentally shoved in his clutch.

Samuel Brubaker, 19, the oldest of the victims, was at the wheel.

Coolidge Must Learn To Fish Without Worms

(International News Service)

BRULE, Wis., June 6.—"Mon Dieu!" This exclamation burst forth today from the lips of Antoine Dennis, dean of French-Canadian guides on the Brule river when remined of the fact that President Coolidge used worms in fishing for trout in the Black Hills last summer and possibly may try the same kind of bait aagin this summer in the northern Wisconsin trout streams.

"We only feesh with flies—dry flies up here, and if I act as the president's guide, I will teach heem how to land the beeg ones with a dry fly. And after that you will hear no more about feeshing wit' worms," Dennis said.

Alleged Killer Being Returned For Trial Here

Eugene Anderson, Alias "Don't You Know", Turned Over To Lieut. Wright

NOW BEING HELD IN CINCINNATI, O.

Charged With Cutting Throat Of Dile Allen In Brawl Here In April, 1925

Eugene Anderson, alias "Don't You Know," alias Chas Jackson, the negro, who in April of 1925, is alleged to have killed Dile Allen, another negro, at the Baltimore and Ohio camp at New Castle Junction, by cutting his throat, was today turned over to Karl Wright, lieutenant of police for the Baltimore and Ohio railroad, in this district, by the police authorities of Cincinnati, O., and will be brought back here for trial for his crime.

Lieutenant Wright is acting under authority and on a warrant issued to him through the sheriff's office here. It is probable that he will not return here without extradition papers, which are to be secured as soon as possible, if needed.

Anderson also known by the alias of "Poor Partner" is said to have killed Allen by cutting his throat following a quarrel. He disappeared but the Sheriff's office has been trailing him ever since. Deputy Sheriff William Reynolds some time ago located

Contest Success At Kansas City Adds Confidence

Opposition To Hoover Is As Yet Unorganized, But Quite Active

HOOVER MACHINE IS WORKING WELL

Talk Of Vice Presidential Candidates Is Now Being Heard

By GEORGE R. HOLMES,
International News Service Staff Correspondent

KANSAS CITY, June 6.—Rolling smoothly along like a high-powered and luxurious limousine, the Hoover machine was pointed today toward a sweeping and well-nigh complete victory in its first big test against the field, which was provided by the 73 delegate contests before the Republican National committee.

Victorious on the first day, equally victorious on the second, the Hoover managers swung into the third day apparently in supreme control of the party mechanism there appeared to be no stopping them.

Contests Half Over

The contests are half over. Thirty-seven of them have been heard an judged by the National committee and Hoover has won 35 of them. His managers could, in fact, have won the other two had they cared to exert their strength, but for future organization reasons they chose to seat two influential negro leaders from Louisiana.

The moral effect of this steady succession of victories probably is more important than the 35 seats themselves, important as they may be

Marshal Chang Only Wounded

Chinese Leader Is Still Alive; Wounded In Bomb Attack

(International News Service)

LONDON, June 6.—Marshal Chang Tso Lin, former dictator of the Peking government of China, who was wounded in a bomb attack while fleeing to Mukden, Manchuria, was still alive early today, but in very weakened condition, said a Tokio dispatch to the Evening News. Chang was in his Mukden palace surrounded by his entire family (or families)—five wives and 16 children.

Propped up in an improvised throne which was flanked by two huge, stuffed Manchurian tigers, Chang addressed his wives and children telling them to be of good cheer. He said he was sure that he would recover from his wounds and that the sunshine of victory would blaze upon the banners of his army before many months had passed.

Through Col. Dihara, one of his advisers, Chang issued the following public statement:

"I am all right. Tell my people not to worry. I have escaped too many times to fall victim to any plots at this time."

Miss Chicago Is Elected Beauty Queen Of Universe

(International News Service)

GALVESTON, Tex., June 6.—Miss Ella Van Hueson, otherwise "Miss Chicago," today reigns as "The beauty queen of the universe".

Already selected as the fairest of the American girls entered in the International beauty pageant here, Miss Van Hueson last night eclipsed forty dazzling rivals for the judges' decision as "Miss Universe".

Wins $2000

Along with the title goes $2,000 as first prize money.

Ten beauties from foreign countries were among those outdistanced by the golden-haired "Miss Chicago". She succeeds Miss Dorothy Britton of New York, last year's "Miss Universe".

Mlle. Raymonde Allin, of Paris, France, entered as "Miss France," took down second prize money of $1,000. Other winners were:

Signorina Livia Marracci of Rome, "Miss Italy," third, $500.

Mildred Ellene Golde of Denver, "Miss Colorado," fourth $100.

Audrey Reilley of Charleston, "Miss West Virginia," fifth $100.

No Bobbed Hair

Miss Van Hueson is a distinctive type. She has golden brown hair and hazel eyes; a slender, supple build, rather above medium height. She is 22 years old.

The two foreign prize winners are decided brunettes, having dark eyes and jet black hair. The Colorado beauty is a blonde with long golden curls. "Miss West Virginia" has light brown hair and blue eyes.

All of the prize winners have long hair.

Who said that June brought the sunshine and roses, who said that June was a happy young maid, whoever told you made several omissions. June brings some other things I am afraid. June started off with a smile and a greeting, now she has changed to a frown and a tear, streets are a-wash and the fields are all sodden-ed, skies are all gray, looks like Autumn I fear. June is supposed to be cheerful and happy, rain doesn't make people fox trot with glee, but maybe the crops are in need of a drenching, some cause for thanks, weather's wet, sixty-three.

Preparing For Big Camporee

Lawrence County Scouts To Have Elimination Meet Friday-Saturday

JUDGES ARE NAMED TO CONDUCT MEET

In preparation for the annual camporee of the Boy Scouts of western Pennsylvania, Lawrence county scouts will hold a camporee elimination meet Friday and Saturday of this week, announces J. Lee Calahan, scout executive for the Lawrence county council.

The boys, representing all troops of the county, will report at the cross roads just below the camp at 4 o'clock Friday afternoon, with all equipment properly distributed. Patrol leaders will be in charge of the boys. The first inspection will be at this point and the patrol leaders will be given further instructions.

After this first judging, the boys will pitch camp and cook supper. Because of the wetness of the ground they will sleep indoors, but each scout is requested to bring the same bedding that he would use if he were to sleep in the open.

Each patrol participating in the elimination meet will be expected to put on some form of entertainment at the big campfire in the evening. This will not count for points, but all must take part.

Each patrol will be judged again at breakfast. The meet will end Saturday morning at 11 o'clock.

Judges for the meet are all experts in scouting. William Watson of the Mercer county council, Jack Watson of Washington, Pa., Waldo Robb of McKeesport and K. L. Brown of Wheeling, W. Va., will be the judges for the meet.

The western Pennsylvania camporee, at which more than 1,000 boys are expected to participate, will take place Friday and Saturday, June 15 and 16. To see the progress that has been made in scouting, parents and friends are invited to a campfire program at the camp on the evening of Friday, June 15.

Representatives from all cities in western Pennsylvania as far east as Altoona will be present. Each council will furnish a judge who is an expert in his line. It is also expected that regional and national representatives will be present.

The judges will be quartered in the new Charles McConnell Memorial cabin, now fast approaching completion.

Prayer Meeting For Men Only At Westfield Church

Prayer meeting for men only will be conducted in the Westfield Presbyterian church Friday evening, June 8 at 8:15 eastern standard time, the pastor, Rev. Ross M. Haverfield announced today.

The meeting is sponsored by the men of the William M. Taylor Bible class of the Sunday school and is in preparation for the special week of evangelistic services which will begin on Wednesday evening, June 18 and will continue until June 24 with Rev. Thomas Houston, the blind evangelist as the preacher.

At the meeting on Friday evening there will be inspirational speaking and singing by the men. All men of the church and community are asked to attend.

GRADUATES HAVE GREAT PROGRAM ON CLASS NIGHT

(Continued From Page One)

graduating class to turn its attention to current wonders and aviation is that wonder at the present time. In an interesting way he traced the history of aviation from that historic flight at Kitty Hawk, N. C., in 1903 by the Wright Brothers, down to the present day with its never ceasing exhibition of what aviation will mean. It was well constructed, well delivered, and just long enough to be interesting.

Class Knocker in Verse

For the usual "knocks" to the faculty, the class, the school and anything else coming under the general observation of the students, Mary Elizabeth Gibson read what she called "A 'Nocker's Ravin", a takeoff on Poe's "Raven" and read to the accompaniment of "Melody of Love". The poem was original and drew a big hand.

The class poem was read by Virginia Slee. Here again a lot of originality was shown, albeit, considerable merit in verse building. Her class poem was reason enough why she was chosen for this work. Samuel Davies added a musical touch to the student's program with a piano solo "Polichinelle" by Rachmaninoff. Like the other numbers on the program, it was good.

Class Donors

Comes now the class donations. Shoes and ships and sealing wax, but no cabbages or kings. There wasn't room enough in the "Cauldron", from which the presents were drawn, for any kings, but there were a lot of princesses on the stage. As for the cabbages, Don Switzer the Class Donor and his assistants Sam Fisher and Elmer Williams are not in the truck gardening business. But they did give away a lot of knick knacks that drew laughter. Powder puffs and clothespins, milk bottles and megaphones, throat wash and shoe strings and an endless variety of humorous gifts.

The Axe Falls

At the close of the program the axe fell, but it fell into good hands. Louis Hazen, the class president presented the axe to the Senior B class, a symbol of the burying of the hatchet between the two classes and peace reigned supreme. Charles Perry, president of Senior B, accepted the axe.

Orchestral music for the occasion was furnished by the Senior High school orchestra and you know this was good. It always is.

And that was the Class Day of the class of 1928. To repeat, 299 young men and women who make up the class will break out without any provocation and tell you that it is the best class to ever graduate from New Castle Senior High school. Having graduated from there lo these many years ago, and having covered many, many similar occasions since that time, the writer is willing to leave the statement unanswered. But at any rate the class day exercises were good.

Suit Is Filed To Recover Damages For Auto Accident

Leo Michael of Union township, has filed a suit at the prothonotary's office against Harry C. Behman of Pittsburgh, to recover $344.80, as the result of an automobile accident on the New Castle-Youngstown road.

In the statement of claim it is alleged that the Behman car was being driven by Russell Robinson, and was going east at a speed of 50 to 60 miles an hour, when an attempt was made to pass a truck which was ahead. As Robinson came around the truck he crashed into the car of Michael. The Michael car was completely demolished and Michael was severely injured. He wants $300 for the loss of his car and $44.80 on account of losing 14 days from work while nursing his injuries.

The convention theme is "The Way, the Truth, the Life" and the convention song that will be used will take this for its theme. This song was written by that great song composer Ackley who has written so many of our songs that are in use today.

The director of the chorus choir made up from the various Sabbath schools of the county is John W. Owens with Miss Elizabeth Owens as the pianist. The members of this choir are requested to be at the Cathedral by 9 a. m. Daylight Savings time for a brief rehearsal.

Speakers of Day.

The speakers of the morning are Rev. S. E. Irvine who delivers the convention sermon and Dr. M. Hadwin Fischer, Ph. D., who speaks on the subject "Essentials of Leadership."

The speakers of the afternoon are Rev. Edward H. Bonsall, who speaks on the subject "The Challenge of Youth;" Rev. F. B. McAllister who speaks on the subject "The Spider's Mistake' and Dr. M. Hadwin Fischer who speaks on the subject "Today's Need." Rev. F. B. McAllister will be the inspirational speaker of the evenig session his subject being "A Harp in Hock" which is a vital message on one of today's greatest problems. The evening session starts at 8 o'clock Daylight Savings time. To all of these sessions the public is invited and there is no registration charge.

Court Upholds Assessment On Book Property

Says Net Income Shows That Assessment Of $26,210 Is Not Too High On Property

In the case of John J. Book against the city of New Castle, Judge R. L. Hildebrand handed down an opinion this morning in which the city is upheld.

The case was one in which Book appealed to the board of tax revision from the assessment of $26,210 on three lots with buildings on Neshannock avenue. Book claimed that the assessment was too high.

The board of tax revision refused to make a change, whereupon an appeal to court was taken by Book. The city moved to quash the appeal on the grounds that it was taken more than 60 days after the board had taken action. Judge Hildebrand finds that the city officials failed to act as promptly as they should have when revision was asked and also that the only record on the minutes regarding the case had been a notation "no change".

Two witnesses for Book had testified that a fair sale value of the property was $22,000. Values of $26,000 and $29,000 were placed by two witnesses for the city. Mr. Book's own statement showed that the rental value was over $300 per month, and after $600 carrying charges were deducted the net income was in excess of $3000. The court holds that this indicates that the assessment was not too high. The rule secured by the city on the motion to quash is discharged. Action of the board in refusing to change the assessment is sustained and the costs are placed on Book.

CONTEST SUCCESS AT KANSAS CITY ADDS CONFIDENCE

(Continued From Page One)

when the balloting stage is reached for one thing, it has given the Hoover managers "the winning habit," and for another it has afforded them the opportunity they wanted to get their machine operating smoothly and without friction.

In comparison with the easy efficiency of the Hoover organization, the opposition has appeared unorganized and to a considerable extent leaderless. At least, there has been no unity of direction.

Opposition Unorganized

Kansas City is undeniably filled with party captains who do not want to see Herbert Hoover nominated next week and more of them are arriving on every train. But there is no organization among them, and there is no comprehensive plan for "stopping" him outside of the rather nebulous draft-Coolidge movement sponsored by Charles D. Hilles of New York, and the somewhat hazy plans for a gigantic mass-meeting of farmers in a tented city here during the convention.

"You can't stop something with nothing," was the rather glum summary of one anti-Hooverite.

The Republican National committee, of course, is not the Republican National convention, and the fact that the Hoover forces control the committee is no conclusive proof that they can equally control the convention but the committee members are representative of the party machines in their various states, and it is a brave committeeman who deliberately flies in the face of his state sentiment. Those who do are usually not members of the committee very long.

In the case of these contests, the members have voted almost invariably in line with the known sentiment of their respective states. The committee-men from Hoover states in every instance have supported Hoover contestants; the members from anti-Hoover states like Indiana and Illinois and Iowa have invariably voted for their opponents.

A few have been found on both sides of the fence. W. M. Butler, the chairman, is one of these. Massachusetts is uninstructed, but is expected to go for Hoover, with Butler included.

In the face of this superior Hoover organization and tactics, as revealed in one instance by seven Hoover campaign managers obtaining proxies and voting as members of the National committee, the opposition has fallen back with uncommon vigor upon the "defeatist" line of attack.

Cry Is Launched

"Hoover can't be elected against Smith," is the cry of the opposition. It can be heard in every hotel lobby in Kansas City, and probably by the time the great bulk on the delegates arrive it will be in full crescendo.

George Brennan, the Democratic "boss" of Illinois, is being quoted as saying that Smith will carry Illinois "hands down" against Hoover in November. Other prominent Democrats are being similarly quoted, and the anti-Hoover people from the corn belt are button-holing new arrivals and telling them of the dire things that will happen to the normally Republican middle west if Hoover is nominated next week.

The effect of this defeatist talk remains to be seen. Unquestionably it will have some effect on some delegates, but how much will not be apparent until some time next week when the convention gets going.

The talk of the Republicans losing Illinois, however, has already had one effect. It has inspired a vice presidential boomlet for Senator Charles S. Deneen of Illinois, whose political stock has risen amazingly since the Illinois primary, in which he unhorsed Mayor "Big Bill" Thompson.

So supremely confident are the Hoover managers of their ability to nominate their man next week that not a few of them are giving serious consideration to the vice presidential selection.

Thus far the vice presidential talk has gone in two directions—to the East and to the West. It is argued by some that Hoover being accounted a California, an eastern man must be given a place on the ticket for geographical reasons as well as for the reason that Gov. Al Smith is strong in the East. By others it is contended that second place on the ticket in any event must go to the rebellious and discontented grain belt.

"Hoover-and-Curtis" is a ticket that would be contemplated with a vast amount of satisfaction by some of the Hoover leaders. The Kansas Senator voted for the McNary-Haugen bill, and then made himself a possible compromise candidate by turning around and voting to sustain President Coolidge's veto of it.

Swimming Class Appreciates Work Of Expert Leader

A resolution, commending the services of Edwin Gesea, swimming instructor, was passed by the members of the adult swimming class of the Ben Franklin Junior high school at their session Tuesday evening. The resolution follows:

"RESOLVED: That the outstanding work of Edwin Gesea as swimming instructor form the entire school district of New Castle and many adult classes for the last six years, since the opening of the pool in the Ben Franklin Junior high school, through his interest and gentlemanly behavior, as well as his unusual ability to interest increasing numbers of men, women and children in acquatics and Red Cross Life Saving through his expertness as a swimming instructor and a lifesaver, it is with deep regret to the school board and the public in general that Mr. Gesea's resignation is accepted, enabling him to become affiliated with the Pittsburgh public schools.

"Passed by the Adult Swimming class of Ben Franklin Junior high school at their session of June 5, 1928."

FRIENDSHIP IS READY FOR HOP OVER ATLANTIC

either this evening or tomorrow morning.

Although reticent about their plans, the flyers appear brimful of confidence in their venture. They have been planning the flight for months and have left no stone unturned to insure its successful termination.

Can Keep Afloat

It is believed they will follow the ship lanes across to Europe. The Friendship is equipped with pontoons so that even if it is forced down on the ocean it will be able to keep afloat for some time until aid arrives.

Stultz will be relieved at the controls by both Miss Earhart and Gordon. He will also do the navigating and operate the plane's radio apparatus.

The exact destination of the flyers has not been revealed. It is believed they plan to land at Southampton or at some other English port affording an open landing space.

Besides her husband she leaves the following children: Mrs. Mary Hamett of R. D. 6, Anna, Frances, Joseph and James at home.

Funeral services took place this afternoon at 3 o'clock from the home. Burial was made in Valley View cemetery.

SOUTHERN CROSS WILL CONTINUE FLIGHT FRIDAY

(Continued From Page One)

tored Southern Cross, Captain Charles Kingsford-Smith and his three companions spent the time today in searching for a suitable hopping off place for their flight to Brisbane, Australia, now set for Friday.

Contrary to earlier reports, James Warner and Harry Lyon, the Americans who acted as radio operator and navigator, respectively, on the first two legs of the flight, will accompany Smith and his co-pilot, Charles T. P. Ulm, to Australia, it was announced here.

Between Suva and Brisbane, on the northeast coast of Australia, lies 1795 miles of ocean which the Southern Cross must traverse on the third lap of its 7800-mile course.

Many Small Islands.

The course is approximately west by southwest, with a few markers strewn along it. The first of these will be seen after the huge monoplane has covered about one-third of its flight. Some 600 miles from Suva the fliers should sight the New Hebrides islands.

As the Hebrides fade from view, they will glimpse land in the Loyalty group of islands. If visibility is good, they may be able to pick up two small reefs far to the south.

Then, at precisely the half-way mark, the big Fokker will pass over New Caledonia, largest of the markers along the course. In case of necessity, a landing might be made on this island.

From New Caledonia to the continent of Australia is open water—another 900 miles of it.

Storm Center.

The area to be traversed is known as one of fierce and sudden storms in the period between December and March. During its flight, however, the plane should encounter no extreme winds, according to mariners.

For the first half of its hop, the Southern Cross probably will buck head winds from 15 to 25 miles an hour velocity. After passing New Caledonia, it enters a stretch of variable breezes.

Phone Etiquette Bars Use Of Hello

From the slate grey era in which Godey's famous "Lady's Book" blossomed forth, down through the decades, reams and reams have been written about etiquette—the conventionalities of the dance, the wedding, the bath, the drawing room and the drinking bout.

But little has been written about the proper behavior in using the telephone, as witness the fact that there are comparatively few telephone users who are aware of the fact that the acknowledgement "hello" when answering the phone is now a musty relic of the telephonic past—especially when business calls are involved.

That, says John R. Dunfee, city manager of the Bell company, is only one of the many things that the book of telephone etiquette should contain.

The "hello" should never be used. Now it is proper to identify oneself by name or the number of the phone which he is using.

And there is another little mannerism which causes more hard feelings than one could imagine. That is the practice of banging the receiver on the hook the minute you are thru talking. This makes a very disagreeable sound in the other party's ear. Telephone manners are as important for voice-to-voice communication as other manners are in face-to-face conversation.

Again, the receiver should be hung up as soon as the rapid buzzing "busy line signal" is heard. Talking directly into the mouthpiece with lips half an inch away will enable the one to whom you are speaking to get your message without straining to hear you.

Ernest C. Wolf Gets Signal Honor

New Castle Boy Is Elected To Blue Key Honorary Fraternity At Temple University

Word that Ernest C. Wolf, son of Mr. and Mrs. E. R. Wolf of 921 East Morton street, has been elected to the Blue Key honorary fraternity of Temple University, has reached here from Philadelphia. In being elected to membership to the fraternity Mr. Wolf was accorded a signal honor as the organization is composed exclusively of student officers of the university.

The local boy, who is now enjoying a few days' vacation with his parents here, served as assistant student manager of the football squad of Temple last year and has been elected student manager for the coming season, and this official capacity entitled him to membership in the Blue Key fraternity. He was one of the students of Temple honored with election to the fraternity during the past school year.

Since his graduation from the local high school in the class of '24 Mr. Wolf has gained many fraternal and athletic honors. For one year following his high school graduation he attended Thiel University, winning recognition in track activities there and becoming a member of the Sadhe Aleph fraternity. In the Senior High he was also prominent in athletic circles, winning his varsity letter in track and serving on the football squad.

At Temple University Ernie is well known among the student body for his good nature and his ability as an athlete and an executive. In addition to the fraternal and athletic honors extended him at the university he was selected last year as secretary of the Temple University Athletic Council.

Last year Mr. Wolf represented the university in the Penn relays and served as assistant manager of the football squad.

Upon the completion of the past season Ernie was unanimously chosen to serve as student manager of the squad next year, and plans to spend the summer in Philadelphia, in order to keep in touch with developments for the coming season.

Mr. Wolf is a member and treasurer of the Delta Sigma Pi, the Temple chapter of the international fraternity. But he has not permitted his athletic and fraternity interests to interfere with scholastic activities and has completed his major subjects with honor for graduation in 1929. He is preparing to become a credited public accountant.

While in the local high school Mr. Wolf was a special writer for The News.

SERVEL
Electric Refrigeration
6 reasons why you will want the new Servel
1. Greater beauty and simplicity in design—inside and out.
2. Better construction and finish. Heavy pressed "Armco" steel with one-piece lining of porcelain.
3. Simpler, sturdier mechanical equipment—quiet, fool-proof and more economical to run.
4. The coldest refrigerant—hence the most efficient—in household use.
5. Greater freezing capacity—more ice trays—more cubes—easier to handle—quick to freeze.
6. Better temperature control—entirely automatic. No delicate devices to get out of order.
You can buy Servel on easy terms
Any of the Servel models, as well as the Servel installation in your own refrigerator, can be purchased for a moderate first payment and the balance spread over a convenient term of months. Ask for details.

THE AIR ADVENTURERS

NEW air mail and passenger routes are being established all the time. The novelty of air traffic has almost disappeared. Not so the romance. The Southern Cross, if memory serves, is the fifth plane safely to make the flight from California to Hawaii. Yet America awaited news of its safe landing with baited breath.

Adventure is not foolhardiness. Every effort was made by those responsible for this trip to make it safe, to prepare for emergencies, to think out difficulties and to be ready for them.

This sort of thoughtful preparation is one of the causes for Lindbergh's continued success. And while, in these new, strange, uncharted fields, even the best prepared may meet unforeseeable and unconquerable dangers, still on the whole the principle holds good. Patience in waiting for good weather may be difficult, when the ship is ready to sail. But so long as weather is so important, the calmness which permits waiting for the best opportunity which the present weather-wisdom can supply may make all the difference between success and failure. Some flyers have lost their lives because they thought other people might think them afraid if they did not start in the face of adverse conditions. This fear of opinion is in itself not only unworthy but dangerous.

The great discoveries are made by those who use all the wisdom they can gather, and who leave as little as possible to chance.

SAVING THE OLD MAN OF THE MOUNTAIN

THERE is wilder and more impressive scenery than the White Mountains offer, but none that has a greater background of romance and tradition.

Thus New Hampshire draws summer visitors from every part of the country, whose interest in the preservation of its picturesque beauty is hardly less than that of the natives.

It is gratifying to learn that two tracts threatened by the hand of the spoiler have now been preserved in perpetuity. One is the famous Franconia Notch and the unique rock formation to which was given the expressive name of Old Man of the Mountain. The second is the Waterville Notch forest. The destruction of either would be a sacrilege upon nature.

Franconia has been made a part of the National Forest; Waterville has been acquired jointly by the state and a society. It is not likely that in either case any felling of timber will be allowed—certainly not in the state park. In the government reservation there might be some thinning out under expert supervision, though the money value of the growth is comparatively small.

A greater danger is forest fires, against which adequate protection is necessary. Many great woodland areas have been disfigured in this way. The tourist can do much to protect them by care in the use of matches.

WORKING WHILE YOU ARE LEARNING

THEY have been holding "Labor Day" down in Berea College in Kentucky, says the Philadelphia Inquirer. It is familiar enough to those who are acquainted with the history of that useful institution, but it is not as well known as it ought to be to many others. It fills a unique want with its traveling libraries, its social settlements and its popular lecture courses. It caters particularly to the mountaineers of the Southern states, persons who have not had many educational facilities or advantages.

One of its distinctions lies in the fact that the students labor while they learn. Those who attend its courses are required to work two hours a day at some gainful employment. The ceremonies on "Labor Day" consist of the awarding of prizes to those who have excelled in various kinds of employment. Farming is one of the chief occupations, but the diversity of work may be understood when it is stated that there are forty-five sub-divisions of the industrial department. At the present time 1800 students are profitably employed in some branch of the school. The earnings vary, but last year they amounted to $150,000. This policy of paying your way, in whole or in part, has helped to make the college popular, but more than that it has instilled principles of industry into those who are ready to go out into the world to earn a living after they have concluded their college days.

A new era is opening in the South which has been gradually changing—in some sections—from an agricultural into an industrial country. And in the awakening much credit is due to sane institutions like Berea College.

A CHECK TO RUM-RUNNERS

THE provincial government of Ontario has made a very fine and friendly gesture toward the government of this country by ordering closed all liquor export docks on the Canadian side of the Detroit River from Amherstburg to Belle River.

It is from those docks that nearly $50,000,000 worth of liquor annually has been supplied to rum runners for the Detroit trade.

Whether the Ontario government can enforce its order remains to be seen. The exporters assert that it has no jurisdiction over the docks and that they will defy the order.

Our own officials have full responsibility in this matter of drying up the border on this side. Their work would be brought somewhere within the realm of human possibility, however, if the spigots across the line could be turned off.

Some people find prosperity by advertising for it.

America may in time emerge from the hallucination that a universal panacea is to pass another law.

Hints and Dints

Sun sets tonight 7:27. Sun rises tomorrow 4:29.

It is our understanding that a well known capitalist keeps money in seven different countries. We would like to learn his system. Personally, we've found it impossible to keep money in any country.

A poll by a Pittsburgh paper being taken to find out how Al Smith stands for president has found that voters in Western Pennsylvania have badly broken party lines. We know that right here in New Castle and from what voters have been taught by alleged Republican politicians it's no telling what they will do in the future.

We read an account of a three-year old boy setting fire to his home when he was smoking cigarettes. The father and mother of this baby swore in court that they could not keep cigs away from this infant almost in arms. Do you believe that? Neither do we.

SOMETHING ABOUT BABIES.

Helen, 3½ years old was told to watch the chickens out in the yard by her mother and being cautioned thusly. "Now if you let them scratch up my flowers I'll hang you."

After being out some time Helen came in and said "Mama, which tree are you going to hang me on? I don't want to watch them old chickens any more."

That girl who has broken off with five boy friends since Christmas is evidently courting for revenue only. Still it may be that as suitors none of them suited her.

Our idea of zero in mental perturbation was the reaction we felt recently to the statement that $100 bills are being counterfeited.

It is reported that Col. Lindbergh sort of enjoys being knocked after being lauded as the air darling for about a year. "A little knocking is enjoyed now and then by the best men" if it comes from a lot of worthless louts.

We recently read that one man in five now drives a car and later that "one driver in six is a woman." The two statements don't seem to dovetail.

EXTRAVAGANT ALGERNON.

"Ma" said little Algy holding up his bread in scorn "can't I have some jam on this?"

"What?" ejaculated his economical mother. "Jam on butter No indeed. Certainly not."

"Oh I don't care about it being on the butter" said Algy calmly. "Put it on the other side."

We read of a man who died recently who spent a large part of his life hunting strange scents. We wonder if he ever tried a small movie theatre.

Our idea of an experienced optimist is a young lady who came down town yesterday and bought a spot proof dress and a bottle of benzine.

Human nature judges others by itself and we suppose college professors think other people are decidedly queer not even being especially absent minded.

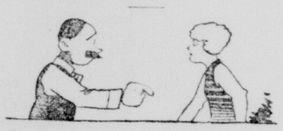
The nicest woman we have met lately said upon being introduced: "Why I supposed you were a much older man." And we did not give her a shock by telling her how old we really were.

Perhaps the most unfortunate man is the one whose wife has some new salad forks that she is particularly fond of. We do not have any new ones at our house.

Extreme latitude may be allowed in shirts now but as far as we can see there isn't very much longitute.

A lot of mighty good streets and roads are not traveled much just because a lot of people get into the habit of traveling over the most traveled streets and roads. A little head work in traveling will relieve a lot of congestion. For instance going to Cascade park up Long avenue instead of going up East Washington street and a lot of other ways of going places if a little thought is used.

A hurricane in Vera Cruz Mexico, destroyed about five million banana plants. This will make a real short banana crop this year. And those who have 'em to sell will take advantage of that hurricane's work.



Intuition is the quality that tells one of five daughters the honk out in front is for her.

The candidate with a sense of humor ought to get by pretty well this fall. And by the way the campaign is not going to be much of a joke after the conventions get through with their work.

LIFE.
By
Franklyn Blanning.

Life is a tall candle,
Drama and a flower;
So the poets tell us
With sweet rhyming power,

Life is a long voyage
And a castled tower.
That is what life can be
In a poet's bower.

If life is a candle,
May it flame high for me;
For the brighter the light,
That much more I can see.

If life is a dream
Put valor in my heart;
That I may have courage
To play the hero's part.

If life is a flower,
May it be like the rose;
The rose must have it's thorns,
And man grows strong through foes.

If life is a voyage,
May it be foul and fair;
For skill must be tested
To make a mariner.

If life is a castle
That we build bit by bit;
May I never cease to build—
To cease would be to quit.

So far very few presidential candidates have attracted as much attention as the new flivvers.

We stopped a bird and refused to listen to him when he told us he could tell us a story at which we would laugh ourselves to death. We would like to have that story to use on some bozos we know but we do not want to take any chances on it ourselves.

The official number of dead taken from the exploding coal mine at Mather, Pa., is 195. What an awful price to pay for coal!

It's a wise parent that knows its own son is upstairs in bed.

For that matter, no man is a hero to anybody who sees him in wrinkled pajamas.

We noticed where a congressman was demanding an investigation of the fertilizer industry. Evidently the day has passed when a man could go out and buy a load for 50 cents and feel pretty sure there was no funny business about it.

It is predicted that Al Smith will be nominated on the first ballot at the Dem convention in Houston. What a change in sentiment in four short years! Al didnt even have a look in four years ago for the nomination in several weeks of convention.

One cant help suspecting the infallibility of womens much boast intuition when one considers some of the things they marry.

An invisible death ray capable of instant destruction of any living thing it touches has been invented by a young German scientist. We hope some bimbos we know in New Castle do not get hold of any of that stuff. You know.

No picture of utter world weariness is equal to that of a paper gatherer jabbing half-heartedly at a bit of waste that constantly eludes his pointed stick. We watched one poking ineffectually at a piece for a couple of minutes and then give it up to move on and try something less obdurate.

That foreigner who was refused citizenship papers because he didnt know "the highest law in the land" is no worse off than a lot of United States senators and congressmen.

We read of a girl who was slightly burned while trying to get warm. That isn't surprising. Some of them look as though they would be pretty well scorched before getting warmed clear through.

The woman who does not care how fat she gets always has a pretty good appetite.

A German gent has left Spain for this country in a tiny skiff of rubberized canvas in which he is trying to row to New York. He and his boat will be hard to find when his friends begin to worry about him not landing anywhere some time next year.

A noted Englishman declares that America is no longer "God's country". We are betting he did not bring his own liquor supply with him when he came here. We do not like to be mean or insinuating, but what would England be now if Americans had remained in God's country during the world war? You know all the rest.

They are doing much talking about building a "town hall" in Pittsburgh. Well, most all provincial burgs have such places.

It is stated that Italy's tax on bachelors is yielding the government over four million dollars a year. The fact that the bachelors pay it as the lesser of two evils is of itself an illuminating commentary.

A chiropodist declares that toe nails are an infallible index to character. Taking one's shoes off to prove such a thing every time it is necessary may prove embarrassing. Showing the toe nails embraces a lot of inconvenience at times. Holes in stockings and a lack of sanitary precautions for instance.

A lot of birds who go around in their bare heads do not get the proper protection at the point of least resistance. Do not take this as personal, dear reader.

Tropical countries have animals and other exhibits that are living in opposition to the rules of procedure and customs found in the colder countries and investigating travelers have many surprises as they carry on their research work. In the Philippines that curious animal the caguan, causes travelers who visits the forests to pause and gaze in wonder. It is one of the curious mammals, has some of the habits and characteristics of the bat and the monkey. When resting or sleeping it swings under a limb on the tree, its tail holding it in safety, its four feet huddled together providing a resting place for its head and its color is so like that of the tree that its enemies fail to discover it and it roosts in peace.

"Go sit on a tack" may be just an invitation to accept a modernistic chair.

After all, there's just one political question the average man is concerned about. How will the election affect my pocketbook?

Watching 7,300 Tickers.
Good Rain, Good Crops.
Another Flying Lady.
Heavy Loss, Stabilized.

By ARTHUR G. BRISBANE
(Copyright, 1928, by N. Y. American, Inc.)

"Everybody" is a big word, but it is a fact that almost everybody is in the "Street", that is to say, speculating in stocks.

The business man, grown rich at something he understands, and trying something that he doesn't understand, may feel sorry for himself later.

The girl with a typewriter in front of her has her few shares, and wonders when she will have a million.

There is more interest in 7,300 stock exchange tickers than in all the books in all the libraries.

There was trembling among tickers and ticker watchers Monday, when call money, used for speculation, went to 7 per cent, and stocks went down.

"Big people" apparently want to discourage excessive gambling by the little people.

Crops in the corn belt have taken an upward turn. Rains in Kansas, Nebraska, Missouri and Oklahoma cheer the farmers. The Arkansas river valley reports "Wheat will make 35 bushels to the acre."

All that is cheerful for the Republican candidate, whoever he may be.

Nothing melts irritation on the farms like good rains, good crops, good prices.

LaFollette's vote dwindled away as the price of wheat went up.

Farmers who demand a presidential candidate "in favor of farm equality", really need equality in methods of production. A blacksmith making an automobile with his own hands would vainly demand equality with production on a big scale.

Farmers, in this age of perfected industry and quantity production, do their own producing, largely, with the methods of 100 years ago.

They will remember that it is easy to make promises. **"There shall be in England seven half-penny loaves sold for a penny; the three-hooped pot shall have ten heaps; and I will make it a felony to drink small beer."**

In a general way, the public feels that young ladies trying to attract attention might find some better plan than adding their weight to a dangerous trans-Atlantic flight. But there will be sympathy for Miss Earhart, now flying with Pilot Stultz.

When she isn't flying, Miss Earhart is looking after poor children, giving her money and her time. An excellent flier, she has never had an accident and she was one of the first to put capital into the Dennison airport.

The franc will be stabilized, probably, at four cents. Thousands of French people with incomes from the French government rentes perpetuelles will have their fortunes permanently reduced by 80 per cent.

It is as though millions of Americans should suddenly find their dollars each worth 20 cents.

France won the war, but war does not pay, even when you win. And that important fact will do more than all the peace treaties to discourage future war.

John J. Raskob, chairman of General Motors Finance corporation, is worried by prohibition. Three hundred thousands workmen are employed by the corporations in which he is a director. And Mr. Raskob has 12 children of his own, 5 to 21 years of age.

He doesn't think prohibition is good for workers, or for children.

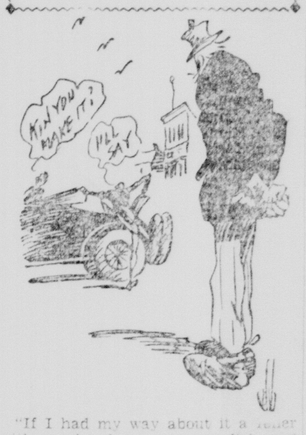
Hearing fathers and mothers defying the law and laughing at it is bad for the coming generation.

On one thing all Americans will agree: Something ought to be done to enforce prohibition, since we have it, and to discourage bootlegging and crime.

Helen Wills of California beat the best British girl Monday and is female tennis champion—barring Miss Lenglen, who is a professional and doesn't care to compete. In the tournament Miss Wills was never forced to play an extra set. She represents California, and the rest of her country, well.

Wilkins, who flew across the Arctic regions, is now "Sir George H. Wilkins" and his wife will be "Lady Wilkins". The king changes "Mr. Wilkins" into "Sir George" with a few words that cost nothing. To millions of Englishmen those words are worth more than many dollars.

Abe Martin



"If I had my way about it a feller with mackerel eyes, a cow lick, an' shirt open at th' neck, couldn' git a license t' marry," declared Constable Plum, t'day, in explainin' how easy 'it is t' detect a potential wife murderer.

The worst waste o' breath, next t' playin' a saxophone, is advisin' a son.

Dr. Crane's Editorial

A BOY'S HERO

We cannot change what heredity we have given our boys, but we can do something in regard to their environment and in regard to the ideals which we shall hold up before them.

Who ought to be the heroes held up for boys today? What men are capable of inspiring them to the right kind of effort?

Of course, there is Thomas Edison, whose grand career is being rounded out with honors and appreciation. He fought his way from the ground up and justly deserves whatever fame he has or shall have. Few men have benefitted the human race more than Thomas Edison.

Then there is Lindbergh, the man who not only conquered the skies, but has shown even greater qualities in the conquest of himself. In all his adulation and prominence he seems to have escaped the bug of egotism which infests the brains of most successful men and ruins them.

But it seems to me that the man who is best qualified to be the hero of the boy today is a man by the name of Mulholland, a California engineer.

Some time ago a dam north of Los Angeles broke. It gave way before the pressure of the waters and the valley below was inundated. Many lives were lost and much property was destroyed.

There was an investigation and the usual talk about finding the person who was responsible for this dam's giving way.

The builder of the dam, William Mulholland, an old man, who had built many dams and dug many ditches at the time of this investigation, stepped forward and said: "If anybody is responsible for this dam's giving way it is I. I am to blame."

Nobody believed that it was through the criminal negligence of Mulholland that the dam gave way. He did the best he could in constructing it. But there was an error somewhere. Instead of dodging the responsibility or trying to shift it to somebody else or to Providence, he came out squarely and assumed the responsibility.

That is the kind of playing the man that this country needs. There is too much dodging and evading. We need men that can make mistakes nobly and are not afraid to say: "Possibly I have erred and I am ready to take my medicine."

No act of Mulholland's life, and it has been crowded with significant incidents, is more worthy of emulation by the youth of the land that his willingness to accept the blame for that which was not in all probability any fault of his.

SPEAKING OF CHAMPIONS

The champions are gifted men, but
oh they're very few;
But one there is who wears the crown
until his reign is through.
But one who can the swiftest run, or
strike the hardest blow,
Or be supreme in any test—and
champions come and go.

Men yearly strive to lead their
fields—they give their strength
and time
The highest mountain on the earth
to be the first to climb.
They train their muscles and their
nerves with energy and will,
For who would be a champion must
have the greatest skill.

Now I can read the record books and
find each champion's name,
And learn who leads his little field in
every sport and game;
But I can find no mention there of
name of date of birth
Of him who's given his thought to be
the kindest man on earth.

I'm told who can the swiftest run and
who can fastest swim,
But who's the greatest neighbor here
—no word is told of him.
Who leads the field in kindly deed?
No line of him is penned
Somehow I think I'de like to know
who is the champion friend.

The World AND THE Mud Puddles

THE ENGLISH OF IT.

'Tis said that the Englishman has little or no sense of humor. That is all wrong; he has a very vivid imagination, phlegmatic as he is in his attitude to changes. The great trouble with the United States citizen is that he expects the whole world to know all about his manner of living, his base ball games, his perennial jokes, his slang and all that. The North American is very self-centered. So is the Englishman and each cannot understand why the other is so ignorant of his interests in life. I have gathered from English newspapers a few choice bits of Cousin John's flashes of wit and set them forth here:

London Loidy (explaining her black eye)—All caused by this eternal triangle—me, me 'usband and 'is wages.

Staffordshire Woman (complaining against flirtatious husband)—He's worse than one of those shrieks of the desert, your worship.

Sailor (in London Court)—You call her my better half, your worship, but she's more than that—I'm only a tar, she's a tartar.

Woman (testifying against husband)—He's an awful liar. Why, I can't even believe what he says in his sleep.

London landlady (during testimony)—My woman tenant is a modern wife—two rooms and a two-seater.

Kent Magistrate—We think your boy ought to go to a training ship.

Mother (indignantly)—No, sir, we are hambitious for 'im to be a dustman, an' 'e can't learn that at sea.

INFORMATION

We all need information a great deal more than we need conversation. Luncheon clubs and organizations of several kinds are properly interested in international peace. They can do much in promoting it—especially those clubs which have relations with similar organizations abroad. But first of all the members need information. They need information about European boundaries and European politics and European problems.

SWIFTER AND SAFER

Airplanes of the future will be bigger and swifter and safer. So says Charles L. Lawrance, inventor of the Wright whirlwind motor. In flying, speed and safety go hand in hand instead of opposing each other. The speed of automobile driving has much to do with the element of safety. Swifter airplanes are expected to be safer planes.

A DREAM WORTH MILLIONS

When Mr. Loree, president of the Delaware & Hudson railway, sold that road's holdings in Wabash & Lehigh Valley stock to the Pennsylvania system he sold a dream for $63,000,000. Mr. Loree long believed in another great trunk line system across the territory between New York and Chicago. He had gathered his huge holdings for that purpose. Giving up his dream he gets cash for it. Sometimes dreams that can be sold for cash are even better than those that come true. It all depends on the dream.

SHORT ON EDUCATION

There are about 5,000,000 grown-ups in the United States who cannot read or write. Contrary to a common notion these are not mostly foreign-born folks. The fact is that most of our illiterates are made in America. Of this nearly 5,000,000 less than 2,000,000 were not born in this country.

WORK FOR SCHOOLS

As good as our school system is there is still vastly too many who are not reached by some sort of simple education. Children of the poor in industrial centers and children in out of the way places are sufferers.

There is great need of more part-time and evening schools. Municipal universities, supported liberally by the taxpayers, ought especially to be encouraged.

WHO IS RESPONSIBLE?

Many parents spoil their children for life by relieving them of all opportunity to develop a sense of responsibility and a talent for initiative.

The spoiled boy or girl is at a great disadvantage in life. The spoiled girl is likely to stay spoiled until she is mature, especially if she is pretty. Men will not try to discipline her—unless they marry her. Almost any man is too chivalrous to say to a pretty girl, "Oh, run on and meet the world! You're spoiled! You are not at all important. Somebody told you something false. Somebody said you were the light of life, and you believed it!"

No, the men will gallantly keep on spoiling her. They will bear with her foibles because they can go and join another party at any suitable hour. But one of these men will marry the spoiled girl, and then see what happens!

Life turns out to be a business that is full of responsibilities. The spoiled girl won't take on her share. She will continue to expect her husband to pick up everything she carelessly drops, and in return will give him a tired countenance.

That means that husband resigns, and the job is soon taken over by another. The spoiled girl revels in a succession of husbands, until she gets wrinkles in her neck, eyestrain and a slight stoop. What then? Well, sometimes a sour old age. Sometimes a husband who will continue to hold down his job is properly cajoled. Sometimes a tired disillusionment and suicide.

* * *

The spoiled boy is more likely to have his doting mother's ill-advised work undone before he becomes thoroughly mature. The other boys at school will beat him up frequently, call him names, tease him, and maybe make him ashamed of his rearing.

But if the spoiled boy stays spoiled until he gets into the business of professional world, he's likely to be awakened to the interesting knowledge that he is not worth spoiling any more. Employers and business associates haven't time to keep on spoiling him. He'll not survive as the spoiled boy long enough to spoil a family's welfare, unless he has financial support and more or less seclusion from the world guaranteed by parents.

* * *

Initiative is the quality that is most in demand in the world. Modern schools are beginning to pay some attention to this demand for initiative, and are trying to give their pupils opportunity to develop, instead of spoiling them by leading them around and around in a well-worn path called "education."

Wireless Playing Important Role In Big Pacific Flight

Southern Cross On Way To Australia Never Out Of Communication With World

(International News Service)

SAN FRANCISCO, June 6.—In the epic flight of the Southern Cross over the broad 3100-mile expanse of the Pacific, stretching between Kauai, Hawaii and Suva, Fiji islands, radio experts here acclaimed a new and most significant demonstration of the important role which wireless has assumed in the history of air travel.

For throughout the entire space of 34½ hours, during which the huge monoplane was cutting a pioneer air path over the wide ocean, its radio apparatus poured forth to a watching world an unbroken series of messages, furnishing a graphic account of its progress.

Championship Teams Honored At Chapel

Grove City High School Grid And Track Men Are Presented Two Cups

GROVE CITY, Pa., June 6.—Grove City High School's Mercer county championship football and track teams were honored this morning at a special chapel service in the auditorium. The Conrad Schmitt football trophy, a three year cup, was presented by Louis Schmitt, former Sharpsville athlete, to the Mercer county champions who are the first to win a leg on permanent possession of the trophy.

The Thiel College Track trophy was also presented to the local High School, the county championship having been won by the Grovers last week, at Greenville. Grove City High School now holds two Mercer county championships, football and track, while Sharon holds the basketball title.

Lydia E. Pinkham's Vegetable Compound Helped Her So Much

Kingston, Mo.—"I have not taken anything but Lydia E. Pinkham's Vegetable Compound for 18 months and I cannot praise it enough. I weighed about 100 pounds and was not able to do any kind of work. My housework was done by my mother and my out-of-doors work was not done. I have taken four bottles of the Vegetable Compound and now I am well and strong and feel fine. I got my sister-in-law to take it after her last baby came and she is stronger now. I cannot praise it enough."—Mrs. Hattie V. Eastin, R. 1, Kingston, Missouri.

Railroads Urge Care At Crossings

Six Killed And 18 Injured Every Day Last Year At Crossings

In their Cross Crossings Cautiously campaign the American Railway association is endeavoring to have the railroads do their part to lessen the needless sorrow and suffering resulting from the thoughtless and carelessness of motorists approaching railroad crossings.

It is stated in the last year there were over six persons killed and 18 injured every day by crossing accidents throughout the United States. In 1927 there were 5,640 accidents at railroad crossings, with 2,371 persons killed and 6,613 persons injured.

In most of the cases it was the fault of the driver of the auto and not the trainmen. This is also shown that of all highway accidents, those occurring at railroad crossings were but 9 percent of the tragic toll of more than 25,000 persons killed and about 1 percent of the persons injured upon our streets and highways in 1927.

In the past 15 years fatalities at crossings have little more than doubled with 1,032 in 1912 and 2,371 in 1927, while fatalities on streets and highways are more than eight times as many as there were in 1912 when there were 3,047 as compared with 25,000 in 1927.

The American Railway association says that a complete separation of railroad and highway crossings by overhead or under passes, while it would eliminate this particular type of accident is impracticable. Generations of time would be required to accomplish the result with a cost approximating nineteen billion dollars.

The railroads make the following suggestions for reducing accidents.

Crossing eliminations should proceed in an orderly, consistent manner.

Highways should be re-routed where practicable to avoid crossing railroads.

Stop making new crossings.

Divert highway traffic to protected crossings.

Compel obedience to stop signal.

Approach railroad crossings prepared to stop in a safe place.

Recognize railroad crossing signs and signals as positive indications of danger. Act accordingly.

Cultivate habits of looking and listening EXPECTING train.

Continue observations at multiple track crossings.

Exercise proper care at EVERY crossing.

The Diary of a New Yorker

by CLARK KINNAIRD

Exclusive Central Press Dispatch to New Castle News

NEW YORK, June 6.—Battery Park best reflects keleidoscopically the color of a great city. It is the place where all sightseeing tours ought to begin. On two sides are waters carved to and fro by ships. Over there is Governor's Island, and out there the Statue of Liberty and over yonder Ellis Island. Up in the park is the aquarium. From the piers one may sail away at small cost to Staten Island or Coney Island or Statue of Liberty or all around Manhattan Island.

In the background there are the thousand eyes of the great skyscrapers of lower Broadway, with a pleasant stretch of greeness, a few trees and flowers, between you and them. Sit down, and you see the world go by. Sailors, newly arrived emigrants, wornout men, budding women, financiers out for a walk, shoe clerks out for romance, happy children, sad children, people who want to see the city and others who want to escape it, sellers of statuettes, hot dogs, corn plasters, peanuts, pennants, Bibles, dice, newspapers.

Battery Park rests and it tires. It suggests the mystery of the ocean, the futility of the city, the pleasantness of the countryside.

A man who makes a business of going around after weddings and buying up the duplicate or superfluous presents, made a rich haul at a certain Park avenue address. Among the gifts the bridal couple got were 12 silver cocktail shakers, each with 12 glasses or goblets, seven clocks and 14 gold fruit bowls.

"It's a good idea to marry your daughter off in a rising market," says the father, a broker, regarding the many expensive gifts.

The famous war of two Denver newspapers, which led to the donation by each of three gallons of gasoline with each 25-cent classified advertisement, has a parallel in the price fight of two New York department stores. One of them has an advertised policy of selling everything at least six per cent under its competitor. When its nearest neighbor began selling a certain nationally advertised article at a cut price, 29 cents, the first store went down to 27. The other retaliated with a cut.

Of course the second store reduced again. This continued until one store was selling the article at a penny. The other shop, to adhere to its six per cent below policy, promptly began selling the things two for a cent.

The battle has extended to other articles, much to the joy of bargain hunters, whom it keeps out of breath trooping from one store to another to watch the price barometer.

Chicago Chatter

BY IONE QUINBY

Exclusive Central Press Dispatch to New Castle News

CHICAGO, June 6—The term "gold digger" is no longer synonymous with the words 'chorus girl.' The chorine, blonde and beautiful, who was said to dig pearls, limousines, and deluxe apartments out of the pockets of the big butter and egg men, has lost the title to wives and divorcees.

Chorus girls were amateurs compared with gold digging divorcees who get their way paid for life and don't even give a sympathetic ear in return, according to the Alimony Club of Illinois, here. The club, organized to battle against childless wives and ex-wives seeking alimony, private detectives who trail unsuspecting husbands, and "shyster" lawyers, meets every few weeks. The members are husbands or ex-husbands who have been yanked into court. The tales told at its round table sessions are as unique and highly interesting as some of those regaled at the Isaac Walton league or the Adventurers club.

Made brothers by a common burden, these professed victims of laws, which they say prescribes that the man shall "pay and pay and pay," support a lawyer, who looks after their individual interests. It might be said in passing that no such club was ever formed to protect men from the gold digging chorine.

Hotels in Chicago are constantly devising new means for pleasing guests. Not long ago an Indian rajah visited the city, bringing with him not only the Maharanee, but two youngsters with wide, beary eyes, and a bodyguard wearing white turbans and wicked looking knives attached to their belts. After leasing the entire eleventh floor of one of the skyscraper hotels, the rajah asked to rent an elevator. His son, pride and joy of his life, was so pleased with the sensation he experienced while arising in the elevator that he desired to continue the sensation. The outcome was the heir to the estate of elephants and Arabian night jewels rode up and down one of the elevators whenever he pleased, accompanied only by the elevator boy and an Indian bodyguard with a wicked looking knife in his belt. The elevator was "thumbs down" for the time being for the remainder of the patrons.

PETER'S ADVENTURES IN ANIMAL LAND

BY MRS. FLORENCE SMITH VINCENT

"TOM FOOL"

"Would you like to hear about Rain-bird?" asked Bobolink.

"We would!" shouted Peter and the Rabbits in chorus. So Mrs. Bobolink began—

"Rain-bird has the silliest habit you ever heard of. It looks too funny for anything. One day I was flying about by myself—husband was off on business—when all of a sudden I saw a queer thing hanging from a branch. It seemed to be draped right across a twig, but when I drew nearer I discovered that half of it was head and half was tail and that it was a bird like myself.

"'Hello, sir,' said I, 'why is your head lower than your feet? Who are you and what are you doing?'

"'Because I like it that way, stranger,' replied the fellow, without moving. 'My name is Rain-bird, the ground Cuckoo—some call me Tom Fool. I am waiting for it to rain.'

"'Waiting for it to rain,' exclaimed I. 'What in the world do you mean? The rain comes from the sky, and you are looking straight down at the ground.'

"'Of course I am. Before the first sprinkle falls my feathers feel it coming and I cry "ticky-ticky" and everybody knows that a shower is on its way. But I don't take my eyes away from the ground before it begins to pour. For the spiders, ants and earth insects know it is going to rain. They scurry about looking for shelter, but

"HELLO SIR," SAID I, "WHY IS YOUR HEAD LOWER THAN YOUR FEET?"

before they can run very far I gobble them up. My goodness! What is that?'

"'That' was a man. I, Mrs. Bobolink, knew him at once. But, one would think that Rain-bird had never seen a Two-Legs. He flopped right-side up and stared at that man, and stared and stared!

"I flew up on a high branch far above the reach of the creature, who kept coming nearer and nearer. But that Tom Fool never moved. He just kept on looking. Then I saw that the man had a net. Slowly he raised it!"

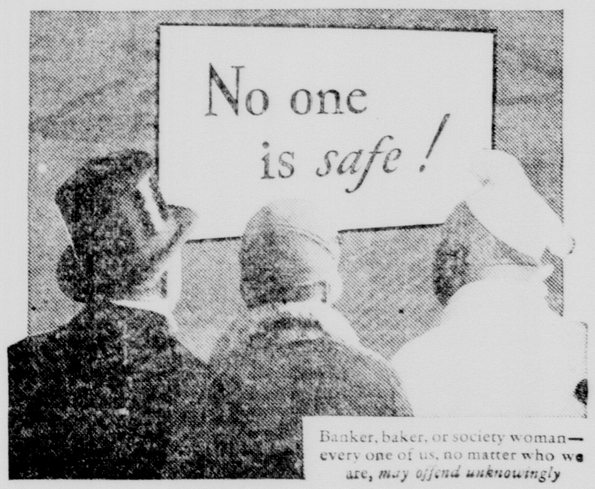
Chief Lynn Gets An Invitation

Will Attend Dedication Of Monument To Former Meadville Chief

Charles H. Lynn, chief of the fire department, has received a personal invitation from the fire department of Meadville, Pa., to be present Sunday afternoon, June 10, at 2:30 o'clock at the dedication of the monument erected at that place in honor of the late Fire Chief Howard Dowdell of that city. The monument is being erected by the fire department of that city and there will be many visiting chiefs and others in attendance at the event, as Chief Dowdell was well known throughout this section of the country. Chief Lynn plans to be present and take part in the ceremonies.

Habit is strong. Last night we heard a political orator and thoughtlessly reached up to turn a dial when he got silly.



Banker, baker, or society woman—every one of us, no matter who we are, may offend unknowingly

Frank facts... about body odor!
How this purifying toilet soap prevents odor
HOW offended we always are when we detect body odor in others. Respect, friendship, love—all wither before this grave offense.
Yet we are all subject to body odor. We'd die if we didn't perspire. Even on cool days—our pores give off invisible perspiration—often as much as a quart of waste each 24 hours.
This body moisture, whether you see it or not, is odorous. And it plays no favorites. Bank president or laborer—society leader or servant—all may offend unless they take precautions.
Easy to keep safe
Unfortunately, we cannot tell when we ourselves are guilty of body odor. For, once an odor becomes familiar to us, our own sense of smell becomes deadened to it.
Yet there's no need to risk offending. Just wash and bathe often with the delightful toilet soap that millions enjoy—Lifebuoy—it deodorizes.
The same mild and abundant antiseptic lather that helps protect health by removing germs—prevents body odor by purifying pores. Note, too, how clear and fresh Lifebuoy keeps complexions.
A hygienic scent millions love
You will learn to love Lifebuoy's pleasant clean scent, which tells you Lifebuoy purifies, yet which quickly evaporates after rinsing.
Use Lifebuoy a week and you'll use it for life. Get some today.

SUIT TO RECOVER FUNERAL EXPENSES

Stanley J. Urbanski a funeral director of Toledo, O., has filed a suit at the prothonatory's office against Joseph Odegas of this city to collect a bill of $464.30 for the burial of Olegas' wife.

In the statement of claim it is alleged that in September, 1927, Mrs. Mary Olegas, wife of the defendant went to Toledo to visit her daughter. While there she took sick and died. As it was found hard to reach her husband promptly the daughter made arrangements for the funeral. The bill, it is claimed has since been presented to Olegas but has not been paid.

Senate Candidate Tells Of Expenses

(International News Service)

WASHINGTON, June 6.—Ex-Gov. E. C. Stokes, runner-up in the New Jersey Republican senatorial primary, told the Reed senate committee Tuesday he spent but $14,609.44 in his campaign. Contributions totaled $16,355, of which he gave $3,300. His charges of excessive campaign expenditures by his opponents led to the investigation. Hamilton Fish Kean, the winner, and Ex-Senator Joseph S. Frelinghuysen, who ran behind, previously testified they had expended about $50,000 each in the campaign.

MAN ARRESTED AS RECKLESS DRIVER

BUTLER, Pa., June 6.—L. M. Silvis of Youngstown, O., was arrested on a reckless driving charge when his automobile collided with a car driven by J. J. Graham of 903 North McKean street, on Jefferson street, near Monroe street, last night. Mrs. A. E. Beck, aged 49, of Woodward, O., a passenger in Silvis' car, was painfully cut on the face and was treated at a nearby doctor's office.

Graham was driving his car east on Jefferson street, when according to the police, the automobile was struck by Silvis' car which was being driven on the wrong side of the street. Both of the automobiles were badly damaged.

Silvis furnished bail for his appearance at a hearing before Alderman Carl G. Phillips Thursday evening.

Zoning Appeals Board Refuses Two Permits

Negative Action Taken On Appeals Before Board On Tuesday

Both appeals up for consideration at the regular monthly meeting of the Board of Zoning Appeals held Tuesday afternoon in the city council chamber were refused. This is the first time that all appeals brought before the board have met such a fate. The full board consisting of Matthew Gunton, Mrs. Florence Pearson and Attorney Frank A. Hover was in attendance.

Appeal of L. O. Nicholson for permission to construct a tin shop on the rear of his property 1419 Jackson avenue met with vigorous protests from five property owners of the district. Such buildings as proposed by Nicholson are permitted only in business districts under the zoning regulations and the protesting property owners stated that they did not went their district filled with business properties of that or any other kind but wanted the district to remain as it was. The board was unanimous in refusing the appeal of Nicholson.

The only other case up for consideration at this time the appeal of A. K. Nader, 1203 South Mill street who had been refused a permit by the city engineer to construct a combined dwelling and garage at the rear of his property.

Mr. Nader informed the board that the building as proposed would cost $6,700 and was to contain three rooms for dwelling purposes and five stalls for automobiles on the first floor and four rooms for living purposes on the second floor.

Because of the fact that this proposed building is located in a secondary business district the D residence district restrictions of the Zoning Board prevail, this being the lowest residential classification in which apartments are permitted.

The board after hearing the remarks of Mr. Nader concerning the matter in executive session turned down his application on the ground that there was not sufficient rear yard room to permit such a structure on his lot in addition to the building already on the property.

Coroner's Jury Says Mine Blast Due To Coal Dust

Primary Cause Of Mather Disaster Is Not Known Is Finding Of Jury

(International News Service)

WAYNESBURG, Pa., June 6.—Explosion of gas and coal dust, the primary cause of which is unknown was recorded by the coroner's jury today as the cause of the Mather Mine disaster on Saturday, May 19, in which 195 lives were lost.

The state mine inspector's commission filed its report yesterday before the coroner's jury which was in session here investigating the cause of the explosion.

The report of the state mine inspectors says that the commission is unanimously of the opinion that the disaster was the result of an explosion of coal dust, affecting in one way or another, the entire operating area, instituted by accumulation of explosive gas.

The report says that while evidence as to the source of ignition in inconclusive, the commission is of the belief that the proximate cause lies in the storage battery locomotive.

FISHERMAN, 87, DIES WHILE AFTER TROUT

WINSTED, Conn., June 6.—George A. Foster, 87, and an ardent angler since boyhood, died yesterday while trout fishing in the Farmington river. He had waded the stream all day.

Late in the afternoon his three younger companions, who included his son-in-law, John G. Nagel, missed the veteran. They found him dead on the bank of the river. Beside him was his creel containing a dozen big rainbow trout.

Over-exertion had brought on a heart attack and caused Mr. Foster's death.

The span of life is increasing and science claims the credit, but something is due the fact that the good die young.

HEAVY SENTENCE FOR WIFE KILLER

Former Aviation Corps Major Gets 20 Year Sentence For New York Crime

(International News Service)

NEW YORK, June 6—Twenty years to life was the sentence imposed today on Cecil Clyde Campbell, former major in the aviation corps, found guilty of murder in the second degree for killing his wife, Mary McLean Campbell, by striking her over the head with a hammer in a room in the Grand hotel last February. Campbell was arrested in Philadelphia.

After counsel for Campbell had pointed out that the testimony in the case indicated that Campbell and his wife had decided upon a suicide pact, Judge Donnellan said:

"From my own personal opinion it would have been better for the defendant to have carried out his part of the suicide pact to save himself the years of mental anguish for the ghastly deed which will haunt him for the rest of his natural life."

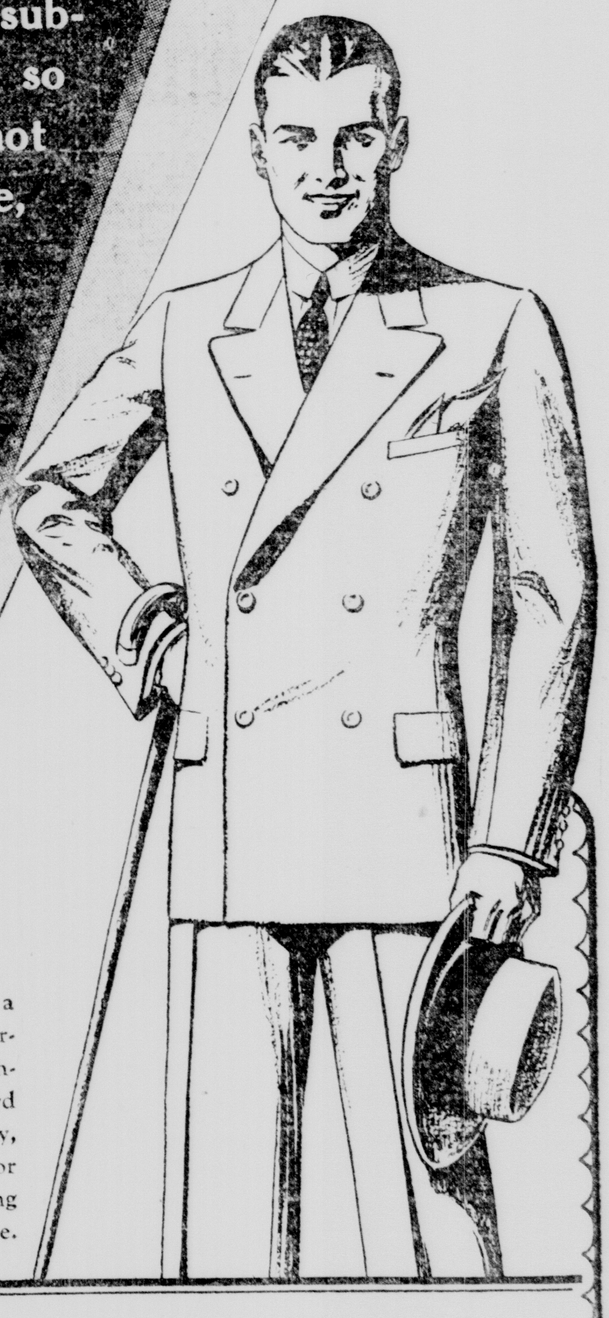
RICHMAN'S CLOTHES

ESTABLISHED 1879

The Name is Your Assurance of Clothes Satisfaction

The entire Richman organization of stockholding employes is pledged to maintain the reputation we have been building for half a century. Today, we are not only making these clothes smartly fashionable and rich in appearance, but we are adding woolen luxury and tailoring quality never before offered at such a price. We are using finer materials than ever in the hidden inner construction—giving more care to each of the 232 separate operations we employ in making a suit—safeguarding as never before the lasting style and long wear you expect of your clothes. You can pay substantially higher prices without getting so much real quality. You simply cannot match Richman's Clothes at the price, nor at a price close to $22.50.

ALL $22.50



We sell only garments made in our own great Cleveland and Lorain factories by men and women who are part owners of this business. We sell them direct from our factories to you, without a middleman's profit, through our 31 stores, 500 factory sales agents, and our mail order department.

This is not a special price on a limited number of suits, advertised to bring you into a Richman store. $22.50 is the standard price, everywhere and every day, for any suit, sport suit, topcoat, or tuxedo suit you choose—nothing reserved to sell at a higher price.

Amendment Provides State Could Do Printing

(From News Bureau, State Capital)

HARRISBURG, June 6.—Although most attention regarding amendments to the State Constitution at the November election has been directed toward the five bond issues and the voting machine amendment, there is another one among the fourteen to be submitted whose fate will influence a sizable portion of the administration's legislative program for the 1929 General Assembly.

That is the amendment which will permit the State to do its own printing in a State-owned plant. This amendment will be first among the fourteen on the ballots.

At the present time the State is compelled to have its printing done in commercial plants by contract. The compulsion was written into the Constitution which became effective in 1873. At that time, 55 years ago, the State's printing bills were small, for the number of departments of the State government were few. All of the departments and commissions which require a large amount of printing to be done have been organized since then. The Highway Department alone uses 16,000,000 printed envelopes a year, in addition to many other millions of printed matter such as application cards.

At the present time the State's printing bills vary from about $600,000 to $750,000 a year, the larger figure being the cost in years when the Legislature meets and requires large amounts of printed bills and journals.

Amendment No. 1 will not require the State to build and operate its own plant, but will permit it to do so. It provides that that the State's printing may be done either by contract or in its own shop. The State's printing now is done in at least four cities of the State, with consequent delays on rush orders.

Evening Swimming Classes Put On Fine Exhibition

The final swimming class of the year for the evening swimming classes at Ben Franklin junior high school was held on Tuesday night. The affair was in the form of exhibition work. A goodly number of swimmers took part.

The class was presided over by Edwin H. Geasa swimming instructor at Ben Franklin high. It was the final effort of the year for Geasa and the last that he will direct swimming in this city as he has resigned his position here to go elsewhere. As a mark of appreciation the evening swimmers presented Mr. Geasa with a beautiful leather gift the presentation was made by Mrs. Ida Finnegan.

The class students staged exhibitions of fancy diving, life saving and swimming strokes. There was a good turnout for the final class of the year.

Fishing Chats with The Old Angler

NUMBER TWO.

Not so long ago a fishing trip with the assurance of good sport, plenty of fish for the pan and to illustrate the proverbial angling yarns meant several days or a week, and long trips by rail or boat, then trucking heavy camping equippage miles back into the wilds and the cost was almost prohibitive save to those beyond the humdrum cares of meal ticket producing tasks.

However with about every industrious average citizen now the owner of a car, conditions have changed, for it is possible to munch your breakfast food, toast and eggs in home kitchenette and in an hour or two be away back in the wilds a hundred miles or more, where you can take your trouting solo and this is one sport in which you want to be much alone for you enjoy it best without much competition and minus a gallery when you resort to trouting in lieu of golf.

So when you revert to the classic trout brooks for sport and outdoor tonic after having grown laggard of limb and expansive of girth through the long winter hibernation the real plan is to get as far as possible from the hard surface motorways, take the by-roads and forest trails and get back so far that even static sounds like music.

Pastor From Transfer At First Baptist

Rev. Fred Harold, pastor of the Baptist church at Transfer, Pa., will speak this evening at 7:45 at the mid-week prayer meeting in the First Baptist church.

Rev. Harold will continue the special study on "God's Plan Throughout the Ages." He will present the Dispensation of Law. He has an unusual grasp of the Scripture and possesses exceptional ability in teaching and preaching.

BOY SCOUT Activities

TROOP 38

Troop 38 held its regular weekly meeting at the Second U. P. church yesterday evening with Scoutmaster Bollard in charge. John F. Thomas, deputy commissioner of the local council, visited the troop and talked to the scouts about the summer camp. Committeemen Earl Book and Robert Whitla were also present.

Robert English, a member of the troop, was presented with his tenderfoot badge and certificate. By passing knot tying, Billy Bovard completed his tenderfoot tests. The troop has arranged to hold an outdoor meeting next week if the weather is favorable.

A hike was held by the scouts last Saturday at which time four of them showed their ability to build a fire as given in the second class scout tests.

The troop is rapidly gathering together the troop equipment and has recent made a great stride by purchasing fire by friction sets.

NOTICE TO SCOUTMASTERS

Owing to the wet and cold condition of the ground the boys who are to participate in the elimination camporee meet to be held at Camp John M. Phillips on June 8 and 9 will not sleep outside. The camporee will be held as usual and all other events will be followed out with the exception of sleeping outdoors.

The boys will bring their blankets and ground blankets just the same and will pitch their tents and equip them as if they were going to stay outside. They will be quartered inside in the new Charles McConnell Memorial cabin. With these arrangements the parents need not fear for the health of their boys as no chance will be taken with their health.

Rev. Walker At New Bedford Church

Returned Missionary From Egypt To Make Address At Union Services

Rev. Robert Walker who returned a few days ago from Egypt where he has been engaged in missionary work for many years will preach next Sunday evening June 10 at 7:45 Eastern Standard time in the New Bedford United Presbyterian church.

This is the usual union service of the New Bedford churches.

In the morning at 11:30 Rev. Walker will make an address at the Children's Day program given by the Bible school. A pageant given by the children will also be a feature of the morning's program.

Rev. Walker is the guest of his mother Mrs. Mary Walker of Maple Lane, Pulaski. He expects to leave in a few weeks for Sterling Kas., where he will join his wife and family. He will be in this country for about a year on furlough.

A candidate's wife must suppress a smile when she hears her husband refer to some other man as "my manager".

TODAY'S RECIPES

Zwiebach Pudding—Take half a package of zwiebach and put through the food chopper. Mix four tablespoons of melted butter with these crumbs. Put a layer of buttered crumbs in the bottom of a small casserole or pudding dish. On this put a custard made of two egg yolks, half a cup of sugar, a cup of milk in which has been dissolved a teaspoon of cornstarch. Flavor with vanilla.

Beat the two egg whites very stiff and sweeten with a tablespoon of sugar. Put this meringue on the custard and finish with the rest of the buttered crumbs. Place the baking dish in another of suitable size which contains hot water. Bake about 20 minutes, or until set and delicately brown. Serve with dots of currant jelly.

Mock Hollandaise Sauce—Take one or two egg yolks, as convenient, and combine with two tablespoons of butter and one of flour. Have a cup of warm soup stock, or the ever handy soup cube, to which a cup of hot water has been added. Add the soup stock and the egg mixture till all is smooth. Flavor with lemon juice, one tablespoon, or a little more if liked, and a dash of cayenne pepper. This may be made and kept warm for some time, reheating at the last minute.

Peppermint Ice Cream—Take a pound of old-fashioned peppermint stick candy and soak over night in a pint of milk. Whip a pint of cream and add to this before freezing. The candy sweetens, flavors and colors the ice cream a delicate pink.

Sweetheart Of Girl Flier Is Little Excited

Samuel Chapman, Fiance Of Miss Amelia Earhart, Prays For Success Of Flight

IS CHARMING GIRL, TELLS INTERVIEWERS

(International News Service)

BOSTON, June 6.—The "Girl Lindy's sweetheart" was as "nervous as a witch" today waiting for the hop-off from Trepassey Bay, Newfoundland, of the trans-Atlantic Friendship.

Samuel Chapman, of Marblehead, fiance of Miss Amelia Earhart, said that it was "the sort of nervousness that creeps over you when you know a loved one is taking a long chance".

The Boston engineer revealed his "Lindy Lady" as a 'real girl" who does not powder or paint, quiet, modest, charming, winning, sweet. "Who couldn't love such a girl?" he asked.

The couple first met in Los Angeles, where Miss Earhart learned to fly and she often dropped love notes to the building where he was employed as a chemist.

Prays For Success

Chapman said he was confident that Miss Earhart would win. When the flight is on Chapman said he would be with his sweetheart's mother in Medford "praying for her success".

Miss Earhart, it was learned today, is a descendant of an old Philadelphia Quaker family. But the busy twenty-nine years that Miss Earhart has lived would make the Quaker maids of years ago shake in their shoes.

Her grandfather was born in Homer, Cortland county, New York but went to Kansas when a young man. Miss Earhart's father, Edwin S. Earhart, was born in Mercersburg, Pa. and studied law at the University of Pennsylvania. As a railroad attorney he took his family to many parts of the country, Amelia being born at Atchison, Kansas. She attended a number of schools and learned to fly in California when she was nineteen years old.

After Selecting His Pallbearers Man Ends Life

MONESSEN, Pa., June 6.—Apologizing for his act, begging forgiveness of his enemies and selecting his pallbearers, Nick Kerestan, 46, of this city, shot and killed himself. His lifeless body was found by a passing motorist on the Webster-Monessen highway, about a mile below this city. A bullet wound was in his head and a 38-calibre revolver lying by his side with one chamber emptied. The letter with his apologies and the selection of his friends as pallbearers, was in his pocket.

Kerestan had been a resident of this city for the past 30 years and is survived by a wife and six children. Despondency due to his inability to secure work is believed responsible for the suicide.

Robbers Get School Cash At Butler

BUTLER, Pa., June 6.—State and city police were searching for the persons who entered offices of the superintendent and principal of the senior high school, wrecked some furniture and secured about $300 in cash. It is not known how the thieves entered the building, but it is thought they may have hidden when the board of education was in session.

Several doors were removed by using a chisel on the hinges in order to reach the offices. The vaults are not burglar proof and access was gained by forcing the doors with the chisel.

Most of the money secured was the fund held by the school and realized from deposits made by pupils for locker space.

Finger prints were numerous after the robbery and several of these were photographed by E. T. Denton of the state police.

Loyalty To Late Senator Willis Causes Ohio To Support Lowden Or Curtis

OPPOSE HOOVER, DELEGATES TOLD

(International News Service)

KANSAS CITY, June 6.—Loyal to the memory of their dead leader, Senator Frank B. Willis, 20 members of the Ohio delegation of 51 to the national Republican convention will support a middle western candidate for the nomination for president, according to Col. Ralph D. Cole, Findley, O., former representative.

Colonel Cole was in Kansas City today to lay the groundwork for the activities of his delegation, which will arrive tomorrow and which, according to Colonel Cole, will oppose to the last ditch the nomination of Hoover.

"We'll stand for anyone except Hoover," Colonel Cole said. "Lowden is acceptable; so is Curtis. The nominee must be a middle western man.

"For the first time in the history of American politics, the Republican nomination is controlled absolutely by a group of states in the Ohio, Mississippi and Missouri valleys."

Plan Advanced Classes At Big Chicago School

(International News Service)

CHICAGO, June 6.—The only advanced course for teachers of sight saving classes in the United States will be opened here this summer at the University of Chicago, according to announcement of the National Society for Prevention of Blindness.

The delicate task of saving the sight of children whose eyes are seriously defective—one of the most important moves being made by the society—has progressed to a point where more teachers are needed in advanced courses, the announcement stated.

Elementary courses will be offered at the University of Cincinnati and the University of Southern California at Los Angeles, but the only advanced course will be at the University of Chicago.

There are now only 300 sight saving classes in the United States.

Report Progress In Preventing Of Dreaded Diseases

(International News Service)

CHICAGO, June 6.—Not one death from diphtheria in 1927 was the record which established Cambridge, Mass., as the leading city in the United States, of more than 100,000 population, in prevention of the disease, according to the fifth annual summary released by the American Medical association.

Only once in the history of the association's investigations has the record been equalled, according to the report. No diphtheria deaths were recorded during 1925 in Duluth, Minn.

Seattle, Wash., placed second in prevention of the disease, according to the report. The death rate, per 10,000 population, was 0.8 in 1927.

The other ten cities which led, in order of their rating, were:

Canton, O., 0.9; Spokane, Wash., 0.9; Syracuse, N. Y., 1.5; Trenton, N. J., 1.5; New Haven, Conn., 1.6; Norfolk, Va., 1.7; El Paso, Tex., 1.8; Grand Rapids, Mich, 1.9.

Walton League Plans Campaign To Protect Game

(International News Service)

CHICAGO, June 6.—The most far-reaching forestry program and wild-life protection campaign ever undertaken by the United States has been assured in the opinion of officials of the Izaak Walton League of America at national hearquarters here.

The Woodruff-McNary and the Sweney-McNary bills relating to forestry and the Bear River Marsh bill for flooding alkaline marshes in Utah were cited by Seth E. Gordon conservation director of the league as examples of legislation recently passed by congress for conservation.

"Congress in authorizing a definite program of forest purchases wild life research has abandoned the hit-or-miss methods and placed a tremendously important undertaking of forest growth on a basis compatible with the nature of the project" Gordon said.

League Of Nations Has Radio Station

(International News Service)

GENEVA, June 6.—The League of Nations may have its own radio station. The council and assembly will consider plans next September.

It is estimated that it would cost approximately $250,000 and require an annual sum of $40,000,000 to operate; 1,200,000 words would be distributed from this station.

Farm Loan System In Reorganization

(International News Service)

WASHINGTON, June 6.—A far reaching organization in the farm loan system has been brought about by Eugene Meyer, former head of the War Finance Corporation, selected by President Coolidge to reshape the government's agricultural banking policies, it was disclosed today in the annual report of the farm loan board.

Meyer's report contains an encouraging note for agriculture. He declared that there are indications of a turn in the tide and that "not only has the bottom of depression in farm values been rached, but that values are gradually improving." Purchasers are beginning to realize the attractive prices at which farms generally can be obtained, Meyer said.

"A great deal of progress has been made in the way of reorganization and improvement during the year and substantial results have been achieved. For the most part the banks of the system are in good condition; a comparatively small number are confronted with situations which require vigorous attention, but their solution will be facilitated by the improvements in management and methods and the cooperation of the farm loan board."

Banks of the system had nearly $2,500,000,000 mortgage loans outstanding December 31.

Doubt Whether Italia Landed Upon Island

Russian Government Inclined To Disbelieve Report Of Franz Josef Landing

MAY NOT DISPATCH RELIEF EXPEDITION

(International News Service)

MOSCOW, June 6.—The fate of the Nobile polar expedition was plunged into deeper doubt and the whole question of Russian relief was thrown into confusion today by developments which indicated that the recent fragmentary radiograms which were supposed to have come from the Italia, did not emanate from that source at all.

After studying the alleged "SOS" wireless calls and the circumstances attending them, experts attached to the communications branch of the Soviet have begun to discredit them. The government relief committee which was formed to aid the search for Gen. Nobile and his 17 missing companions, said today they hesitated to make any move until they had more satisfactory data to work on.

Whether this decision will halt the Russian to Franz Josef island was not certain.

Belief is growing that the fragmentary messages which were supposed to have come from the Italia were from amateur senders who probably mistook other radiograms as calls from the lost balloon.

Royal Aero Club Fetes Early Flier; Once Was Banished

(International News Service)

LONDON, June 6.—The Royal Aero club has decided to give a banquet to A. V. Roe, famous British pilot and aircraft manufacturer, to commemorate the 21st anniversary of his first flight.

Roe was the first Englishman to fly, and his flight in 1907 was the first ever made in the British Isles. It took place at Brooklands, and his machine was a biplane driven by a 7 horsepower motorcycle engine.

As a result of this feat, Roe was requested by the authorities to leave Brooklands, as nothing but danger could be seen in his further experiments.

Soon afterwards successful flights in foreign countries and the crossing of the channel by Bleriot convinced the world that there was something in aviation, and Roe returned to Brooklands, where he started one of the first and most successful flying schools in the country.

Since the war, the firm of A. V. Roe & Co., has been one of the leading aircraft concerns in the world, and among its successes have been the 1,000 h. p. Avro-Napier, the first machine in the world with a 1,000 horsepower engine.

Pershing Scoffs At Suggestion Of Presidency Figure

(International News Service)

CHERBOURG, France, June 6.—Reports current from time to time that the name of General John J. Pershing might be placed before the Republican national convention in Kansas City next week held no special interest for the famous American soldier when he sailed at mid-night for New York on the liner Leviathan.

Asked if his return had anything to do with rumors that he would be a candidate for the nomination for president, Gen. Pershing laughed as he replied:

"Anyone in the public eye today might be called a 'dark horse.' But I assure you that in my own case I am returning merely to look after personal affairs."

Ancient Hittite Bodies Are Found In Asia District

(International News Service)

CHICAGO, June 6—The first bodies ever discovered of the ancient Hittite race of the pre-Greek strata have been uncovered by a party working in the far east under Professor Henry Breasted, famous historian and orientalist of the University of Chicago, who recently returned to Chicago from an intensive exploration tour.

"The discovery is of extreme importance," Professor Breasted declared, "because little is known of the physical race of the Hittites. The skeletons date from 13th or 14th century before Christ. We have obtained thirty-one of these skeletons."

The Hittite skeletons were discovered in excavations in Asia Minor near Luxor and Armageddon.

ROAD HOUSE OWNER ENDS LIFE BY POISON

SALEM, O., June 6.—Henry Grimm, 60, proprietor of Grimm's Inn, a roadhouse on the depot road south of Salem, committed suicide by drinking a bottle of poison after a quarrel with his wife. Mrs. Grimm is suing for divorce and had obtained a restraining order. Grimm went out to the inn to get his clothes, accompanied by Constable Earl Ritchie. After talking to his wife, he ran to the driveway and drained the vial of poison, dying in 10 minutes.

Payroll Robbery At Detroit News Nets Large Sum

(International News Service)

DETROIT, June 6.—One policeman is dying, another was shot in the foot and one bandit is believed to have been wounded when six men armed with revolvers and sawed-off shotguns held up the cashier of the Detroit News today and escaped with a payroll estimated from $20,000 to $50,000.

Federal Pen Sentence Meted Out To "Free Lot" Realty Operators

Hundreds of New Castle people who have had more or less experience with alleged "free lot" propositions will be interested in the following story from Omaha, Neb.:

One year and one day in the federal prison at Leavenworth, Kan., and a fine of $5,000 is the penalty imposed on the operator of a "free lot scheme" for the sale of real estate in a sentence passed in Omaha, Neb., by Judge Woodworth of the United States district court.

The sentence was imposed on Harry H. Cowl, president of the "United States Suburban Home Developers, Inc.", who was found guilty of using the mails to defraud in connection with sales of building lots near Ralston, Neb., an Omaha suburb.

John W. Weinstein, sales manager of the firm, was sentenced to six months in the county jail and fined $1,000.

Two salesmen, who entered pleas of nolle contendre, were fined $100 each, with 30 days to pay. The convicted men have until June 29 for appeal before execution of the sentence. Chief defense counsl, I. J. Dunn, however, has intimated that no appeal will be taken.

The conviction is believed to be the first to be obtained in a federal court for an operator of the free lot scheme of disposing of real estate. Such schemes have been condemned by the National Association of Real Estate Boards and by its member boards as misleading and frequently fraudulent.

The Omaha real estate board initiated the investigation which led to the convictions. W. M. Coble, United States post office inspector, at Omaha, deciding after conference with the office of the United States district attorney that he had enough information to warrant a raid, seized the company's office records and obtained a complete picture of its transactions.

According to the testimony brought out in the Cowl case, the company operated principally by giving out cards at movies and by holding drawings at county fairs. "Lucky" persons were notified that they had won a building lot valued at $250, and that they would receive title upon payment of $59, represented as fees for abstract and deed and other necessary expenses involved in transferring title.

The intended victim was then shown that his lot was located in a low place in the tract and was about 25 by 100 feet in area. He was at the same time shown other lots, 50 by 120 feet, represented to be of the value of $300 to $750 and was told that upon the payment of the $59 actual expenses a credit of $250 would be allowed him on the purchase price of one of the larger lots. With this bait lots were sold at a price as high as $659.

The expert testimony brought in the trial showed the actual value of the lots to run from not more than $25 up to a maximum of $150.

The incident specifically charges that the defendants, "when so devising said scheme to defraud . . . well knew they were and would be false, fraudulent and fictitious pretenses and representations in this, that the persons designated to receive the free lot were not chosen by chance, the fact being that most, if not all, of those signing cards were notified as the one selected, that $59 was more than the actual cost of abstract, deeds and other incidental expenses in connection with the transfer of title in the lot to the intended victim . . . that the lots shown to the victims as being donated to them upon payment of $59 actual cost were not worth the sum of $250, nor were the larger lots of the value of $300 to $750.

Dizzy Headaches Gone And Pains Have Left Back

New Castle Lady Also Free Of Stomach Trouble, After Using Ten Herbs.

"Ten Herbs gave me satisfactory relief from stomach and liver disorders, dizzy headaches and pains in the back," was the statement of Mrs. John Yoho, 211 West Sheridan Avenue, New Castle, to the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, where he is daily demonstrating this great natural medicine to crowds of people.

MRS. JOHN YOHO

"Before taking Ten Herbs, I suffered with stomach trouble," Mrs. Yoho continued. "At times, my appetite was very poor, and what little I ate distressed me. Gas would form and cause me considerable trouble. Dizzy headaches would come on me. My kidneys were not working properly, as there were severe pains across my back. I was constipated nearly all the time. My liver was badly disordered. My tongue was coated, and black spots would come before my eyes.

"I was advised to try Ten Herbs, which I did. I have used three bottles, and there has been a wonderful improvement in my health. Stomach trouble has been relieved—there is no more gas. My liver is in good condition. I do not get dizzy any more, or have black spots before my eyes. Constipation has been corrected. My kidneys seem to be in good condition, and the pains are gone from my back. I no longer have severe headaches. My appetite is splendid, and my nerves are quiet. Ten Herbs benefited me so much, that I shall always recommend it to persons who suffer as I did."

Many in this section are daily reporting to the Ten Herbs Man that the action of Ten Herbs on the inner system is little short of amazing. The wonderful natural ingredients of this celebrated medicine benefit and invigorate the sluggish stomach, liver, kidneys and bowels, usually, making one feel better in every way.

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington street, this city, where he is daily meeting the public and explaining the merits of this medicine. He will be glad to tell you how to take it to get the best results. Free sample given.

Laboratory Will Come To Mercer

Department Of Health Truck Will Be Used To Test County's Water

MERCER, Pa., June 6.—A chemical laboratory on wheels will visit Mercer county soon. The huge van is the property of the State Department of Health.

Its visit will be for the purpose of making a test of milk.

As is well known the same department for the past two years have sent out a traveling laboratory for the purpose of testing water at each tourist camp and posting signs showing whether it was pure or impure.

It is such an advanced step in public health that the department proposes in the milk laboratory.

There are two best known mediums of inoculating with the Typhoid Fever germ, water and milk.

Dr. S. J. Dickey will be advised on the coming of the truck.

The new rubber bumpers save the pedestrian's life, but motorists may be tempted to play ping pong with him.

Grand Larceny Is Charge Against Man Nabbed In New York

(International News Service)

NEW YORK, June 6.—Walter E. Kratz, who is said to have a prison record in Ohio, and police records in Pittsburgh and Buffalo, will be arraigned before Magistrate Glatzmayer in Harlem court tomorrow on a charge of grand larceny.

Kratz was arrested at the jewelry store of Herbert Scrigson, with pockets full of cards bearing the name of Dr. Ralph C. Kahle. He looked at a diamond ring valued at $825. Scrigson phoned Dr. Kahle, found someone had been impersonating him, and notified police, who arrested Kratz after he presented a check signed with Dr. Kahle's name.

CHICAGO GIRL IS BEAUTY WINNER

(International News Service)

GALVESTON, Tex., June 6.—Miss Ella Van Huesen, of Chicago, is "Miss United States." She was chosen as the beauty of the nation here at the third annual international pageant of pulchritude and bathing girl revue. Tonight "Miss United States" will compete with the representatives of nine foreign countries for the title of "Miss Universe."

Campaign Probers To Keep Up Pursuit

By CHARLES P. STEWART
Washington Correspondent for Central Press and New Castle News

WASHINGTON, June 6.—The slush fund investigation season didn't end when congress adjourned.

Instead, the sport seems certain to gain in popularity.

Not only is Chairman Steiwer's senate committee still on the presidential candidate's trail, but a representative committee is in the field now, too, under Congressman Lehlbach's chairmanship—Lehlbach of New Jersey.

* * *

The Lehlbach committee may scare up more trouble than the senate outfit. At any rate, its shooting license authorizes it to be a good deal more promiscuous with its marksmanship.

The Steiwer aggregation was appointed solely to dig into presidential candidates' expenditures.

The mandate of the representatives' committee includes aspirants for the office of vice president as well as president, and likewise for seats in both houses of congress.

* * *

It isn't altogether clear just what would happen if a committee of representatives should decide that a senatorial candidate, for instance, had overspent himself. The senate's the sole judge of its membership. The house of representatives hasn't anything to say about it.

The whole thing's more or less extra-legal, however.

Exactly how much is too much to spend on being nominated and elected to any particular office never has been definitely settled.

A candidate isn't so much afraid of having some specific act of wrongdoing pinned on him, anyway. These times he very seldom does anything he actually could be sent to jail for.

What worries a candidate, when one of these investigating committees is after him, is the danger that something will be turned up which will get him unfavorably talked about, or even laughed at, and spoil his chances with the voters.

* * *

Theoretically, a candidate could stand on his dignity and refuse to answer when an investigating committee deliberately undertakes to play horse with him. He wouldn't run much risk of contempt proceedings. In a court of law they wouldn't hold water.

But in practice the candidate does have to answer.

Otherwise the committee members say, "Ah, so you've got something to conceal, haven't you?" And naturally that would make a mighty bad political impression.

* * *

Not alone are there now twice as many investigators abroad in the land as before, but from now on their activities are bound to be very much more annoying than hitherto.

Thus far they've related merely to pre-convention candidacies.

A pre-convention candidate never can be dead sure he'll be nominated. His hopes may be nipped in the bud, anyway; hence they aren't worth quite so much to him.

The candidate who, once nominated, has got a tender bloom to nurture, is due to be far more sensitive to the way it's monkeyed with by mischievous and maybe downright malicious investigators.

* * *

They've found the gland that limits growth. Now all that remains is to find where the gland is located in lawn grass.

Mill Street Boy Missing From Home

Louis DeAmbrosia of 906 South Mill street, on Tuesday asked the assistance of the police authorities in an effort to locate his son Tony, who left home on the evening of May 31 about six o'clock, and has not been seen or heard of since that time. The authorities will get in touch with surrounding districts and assist the father in every way possible.

Believe New York Girl Is Victim Of Gang Of Kidnapers

Little Ten-Year-Old Grace Budd, Abducted By Trio Playmates Claim

(International News Service)

NEW YORK, June 6.—Convinced that a kidnaping gang is responsible for the disappearance of ten-year-old Grace Budd, police today threw out a dragnet for a woman and three men.

One hundred and twenty detectives, in addition to numberless patrolmen, have good descriptions of the woman and two of the men. The third man remains a more or less vague figure.

It is the theory of authorities that the missing child is held prisoner in a secret headquarters of the band, perhaps in the hill country of Pennsylvania.

The sedan in which Grace vanished with a man calling himself Frank Howard, gentleman farmer of Farmingdale, L. I., bore a Pennsylvania "I" license, according to her playmates.

No Clue Yet Found To Sharon Banker Mysteriously Missing

SHARON, Pa., June 6.—Search for John J. Green, missing assistant cashier of the McDowell National Bank who mysteriously dropped from sight May 20 in Pittsburgh, entered its 15th day today without a clue to the whereabouts of the missing man. Mr. Green was last heard of the night of May 20 when he called his parents enroute to the K. of C. convention at York, Pa., as delegate from Sharon Council. He never reached York.

Police, detectives, members of the K. of C. and friends have extended the search over the Western Pennsylvania and Eastern Ohio districts without result. James Mundorf and Joseph Pharmer, of the Sharon Council, K of C. checked morgues and hospitals as well as police stations in the Pittsburgh district the latter part of the week in an effort to find some trace of the missing man, without results.

Searchers are of the opinion Mr. Green either met with foul play or is an amnesia sufferer and has wandered away. The earch is being extended with all possible diligence in an effort to solve the mystery and locate the missing banker.

How To Achieve Beauty

By MME. HELENE RUBINSTEIN
Noted Beauty Expert

Pedicure is One of the Fine Arts of Beauty.

The modern world has fallen back a step, several steps to be exact, in the care of its feet. We, who like to think ourselves as the most advanced, most perfect form of civilization, would undoubtedly be amazed to know of the many wise and sensible things our ancestors did that we have still to learn. And one of these things is the art of pedicure.

Have you ever noticed that just as soon as custom gives us a veil to hide behind, we begin to neglect ourselves?

A thousand years ago, beauty went barefoot. There were no corns to disfigure her toes, no misshapen joints, in ingrown toenails or callouses either. Then came sandals, with still just enough of the feet visible to demand scrupulous care. Toenails were kept round and fine. Cleopatra had her toes massaged with warm olive oil to soften the cuticle and keep her feet in their best possible condition. Her toenails were tinted with henna, that prime favorite of Egypt's beauty craft.

Next came shoes. Cloth and satin were first—then, soft skin, and lastly leather, and with the advent of leather we marked the advent of corns and all their kindred ills.

The care of the feet has a place all its own in beauty. And it repays itself so well in resultant comfort and freedom from foot troubles that pedicure sells itself to any intelligent woman. The daily bath takes care of your foot bath, but in the summer time it is well worth your while to take a second foot bath.

In taking a foot bath for aching feet any of the following will be marvelously effective in resting, refreshing and drawing out pains. The first: hot water, and about a handful of epsom salts. Have the water as hot as you can bear it and soak the feet for about 20 minutes. Baking soda is also excellent. After the hot foot bath, to rub a little castor oil well into the soles and sides of your feet, cover them lightly and retain over night will prove a wonderful relief.

Another fine massage consists of cream, pasteurized preferably, rubbed well in—cocoa butter is good, though not so effective as these others.

Hand lotion might well be renamed foot lotion for that, too, will cool and soothe aching, inflamed feet. In pedicuring, cut the nails straight across. Never go down into the corners. Smooth the edges of your nails with a file or emery board. You will find it a very simple way of protecting your stockings. And last, be generous with your bath talcum. It's wonderful for the feet. Some bath talcum is also prepared to be deodorant, another point in its favor, especially in hot weather.

To remove callouses, soften the surface with pasteurized cream and then rub with pumice. Follow with another application of cream.

If you tie a piece of lemon over a corn, leave it on overnight and repeat every night for three nights, you will then be able to life out the corn.

New Castle Lady Restored To New Health And Vigor

Miseries Of Kidney Trouble And Sluggish Liver Ended By New Konjola Medicine.

MRS. ANNA SPANISH
Seavy Photo

Health is the greatest asset we can possess. Without it life is uninteresting and we never seem to attain the utmost happiness we all strive so hard to acquire. Many of us go on from year to year with that half-sick feeling that comes from a rundown and disordered inner-system; complaining of aches and pains and remarking about the tired, drowsy feeling that comes over us so often. Since the introduction of the new Konjola medicine, many thousands of people throughout the Central States and Middle West have voluntarily offered strong words of praise for Konjola and hundreds of men and women have given their signed statements to the Konjola Man at the Love and Megown drug store, 204 East Washington street, this city, telling of the wonderful benefits they derived from this celebrated compound.

One of the latest to describe the new health received from Konjola is Mrs. Anna Spanish, Moore street, South New Castle Borough.

"I had been a sufferer for many years", said Mrs. Spanish, "first trying one thing and then another, before I ever knew there was a medicine like Konjola. But now since I have taken this compound it has ended all my troubles and restored new health to me.

"My whole system was badly rundown and most of my miseries were caused by a sluggish liver and disordered kidneys. These ailments gave me untold trouble and no matter what I took for relief, I continued to suffer. I think that these troubles were brought on by poisons and impurities in my blood. It never seemed to circulate in the proper manner and a peculiar numbness in my limbs was caused by this condition. Because of bladder trouble I had to rise several times every night and when I got up the next morning the first thing that I noticed would be a terrific pain in the small of my back that was almost unbearable. Finally I got so nervous most of the time and recently the least noise would upset me. There were pimples and skin eruptions on my face and body and in spite of everything that I did to correct this, they always came back.

"A friend of mine had been taking Konjola and has received amazing results from it. He advised me to give it a trial and so I started on the treatment. Before the first bottle was gone I began to feel better and I knew that this was the medicine for my case. My kidneys got stronger and now, I don't have to get up a single time during the night. Every ache and pain caused by them have been banished and I know that that ailment is permanently ended. Then Konjola regulated my liver and cleansed the poisons from my blood. Since Konjola did this the embarrassing skin eruptions have been cleared from my face and body. I have only taken four bottles of this medicine and yet, my health has improved one hundred percent. I am never nervous and my sleep is sound and refreshing.

"Konjola certainly is a wonderful medicine and I want to say once more that I am only too glad to indorse it to others".

The Konjola Man is at the Love and Megown drug store, 204 East Washington street, New Castle, where he is daily meeting the public and introducing and explaining the merits of this remedy.

Offer To Rent City Building

Councilman Reeves Confirms Report That Building Is Desired

USE FIRE STATION AS STORAGE ROOM

Talk of a new city building flared again in city hall today when Councilman Clayton Reeves confirmed the report that a group of men have offered to rent the municipal building for department store purposes.

Although none of the councilmen today would place themselves on record relative to their future course they did agree that within the near future the matter would be given consideration.

Sometime this month the quarters now occupied by the Central Fire department will be vacated by the transfer of fire equipment to the new South Jefferson street fire-house.

It is planned to tentatively use the quarters for storage of city equipment but to employ the rooms permanently for that purpose may not suit all councilmen.

When the new fire station was proposed it was intimated that the city treasury would be moved to the police station and the police station moved to the quarters now occupied by fire apparatus.

This would have resulted in the room occupied now by the treasury being available for rental but with the offer from persons to rent the municipal building, proper, council's future course is as yet unknown.

Race Association Furthers Plans

Officers and directors of the Progressive Coal, Oil and Iron Racing Circuit, recently organized and including New Castle, Warren, Pa., Warren, O., Butler and Junction Park, New Brighton, met at the offices of the Universal Sales Company on Croton avenue last night.

Reports made indicated that the new circuit will be a success, there being $7,000 in the treasury at the present time to book up the enterprise.

The race events in each of the cities of the circuit are all well willed, there being every indication that there will be a hundred head of horses participating in the two race events in each of the cities.

Purses offered in the circuit for the present season will total $11,000. The season opens July 4-5 at Junction Park, New Brighton.

At the meeting last night, the sale of advanced season tickets in each circuit town by which the purchaser will secure an admission ticket for both days' races, also the admission of his car and a seat in the grandstand for $1.

It was also decided that all complimentary tickets would be cut out, throughout the circuit, and this will apply to the horsemen, those caring for the horses and all other persons, all people being required to pay for admission to the races.

CLAP HANDS, HERE COMES CHARLEY!!!

Today when the newspaper man slipped into Charley's beanry to eat his lunch it was twelve o'clock. Yesterday, at the same time, it was eleven. That is, by Charley's clock. Saturday night, Charley ran berserk. Today he returned to normalacy.

It was Saturday evening, you remember, when all good New Castleites turned their clocks ahead an hour. That was when Charley ran amuck. No, he said very emphatically, he would not turn his clock ahead. The city might turn their clocks ahead; they could do that; the city's clocks belonged to the city. But Charley's clock belonged to Charley.

Sunday, Monday and Tuesday, Charley held out. But pressure was brought to bear. His customers didn't like it. And customers are the ones on which Charley depends for his cakes.

So the great rebellion ended. Charley has joined the ranks of the daylight savers.

Attorney General Of Massachusetts Resigns Position

History Night At People's Mission

Tuesday evening was history night at the People's Mission on Sampson street and Grandma Owery, one of the oldest members of the mission, in fact the mission was started in the parlor of her home on Bell avenue about 38 years ago, told some very interesting facts concerning the building up of the mission until the present time. Her talk was appreciated by the large number of people in attendance.

The scripture lesson was read by Grandma Owery and was Matthew 10th chapter 1-20 verses. She also led in prayer. Two vocal selections were given by Art Southerland, Lonzo Murphy, Mr. Johnson and Richard Owery entitled Steal Away With Jesus Awhile and Mrs. Ed Dout and Jacob Johnson entitled Give Me Thine Heart.

The Home Coming services have been well attended. There were a number of old members present last night and gave their experiences, while others told what the mission had done for them.

Memorial Night will be observed tonight and friends of the mission that have passed away will be remembered. Richard Owery, the superintendent, will give the address tonight.

Valuable Bonds Are Stolen By Buffalo Thief

(International News Service)

BUFFALO, N. Y., June 6.—Bonds worth $38,000, belonging to Richard Mueller, employed by an Arlitzon, W. Va., firm, were stolen early today by a burglar from the residence of Harold J. Cook, where Mueller was a guest.

The burglar broke into the Cook residence by jimmying an upstairs window, according to police. Members of the family heard the noise and turned in an alarm.

When police arrived the thief had escaped, taking with him two suitcases, one of which contained the bonds.

Believe Muscle Shoals Measure Will Be Vetoed

(International News Service)

WASHINGTON, June 6.—The Muscle Shoals bill hung in the balance today with every indication that it will die by pocket veto.

Unless President Coolidge signs it by tomorrow, Congress' latest effort to dispose of the troublesome problem will fail and the big power and nitrate project will remain idle.

Three other measures also seem doomed to fail. One would give veterans civil service preference, another contemplates a five-year building program for the Bureau of Fisheries and the third would restore a dismissed cadet to the naval academy.

Fine Art Display At Terrace School

Collection On Display At School Is Regarded As Exceptional Work

Art work that seems to deny the youth of the originators some of which would do credit to students in a university art course is on display in the Terrace avenue school the collection being the best work of the year.

Posters, bird studies, flower subjects, hundreds of them are posted around the halls and in the rooms of the school and the quality of the display is a wholesome commentary upon the work of the art instructors of the school and of the supervision of Miss Emilie Salomon.

Miss Anna R. Perry principal of the school is visibly pleased with the display as she has a right to be. The display shows a versatility of talents among the students, a delightful originality of ideas and an accuracy of line and form that is surprising.

MERCER WOMAN HURT IN CRASH

Miss Georgetta Gibson Is Injured In Accident Near County Seat Town

(Special To The News)

MERCER, Pa., June 6.—Miss Georgetta Gibson, resident of Mercer, lies in a serious condition in the Mercer hospital today, the result of injuries sustained last evening on the Mercer-Greenville road when the machine in which she was riding was struck by a car driven by Robert Smith of Grove City. The accident occurred about three miles from Mercer.

Miss Gibson told officials here that she was in the act of turning her car preparatory to returning to Mercer when the machine driven by Smith crashed into her car. Miss Gibson said that she had given the proper signals of her intention to turn the car around.

She suffered concussion of the brain, lacerations of the skull and several dislocated ribs. Robert Smith, according to the report, escaped without injury. The Gibson car was badly damaged. It is believed that a wet, slippery pavement prevented Mr. Smith from stopping his car.

Miss Peggie York Contest Winner

Named As "Miss New Castle" In Contest Last Night At Penn Theatre

Miss Peggie York of 26 North Mercer street, this city, was selected as "Miss New Castle" of 1928 as the result of a bathing beauty contest held last night in the Penn theater before the largest crowd of the season.

Miss York is a blonde beauty with bobbed hair, blue eyes, a fair complexion, and is 5 feet 7 inches tall and weighs 125 pounds.

Additional Suits May Be Filed In Radium Poisoning

Report About Score Of Additional Suits May Be Filed By Radium Victims

(International News Service)

NEW YORK, June 6.—A score of additional suits may be brought against the United States Radium Corporation now that it has settled $10,000 and a $600 annuity on each of five girl employes who sued, contending they were dying of radio-active poisoning.

Dr. Harrison S. Martland, medical examiner of Essex county, N. J., said he had received more than twenty requests for examination but referred each prospective patient to a private physician.

Mrs. Marian Clapper Valese, of East Orange, who worked for the company eight months in 1921, believes herself affected by the radium's alpha rays.

It is understood she has consulted an attorney, preparatory to filing an action.

Two of the five girls granted a settlement, Mrs. Edna Hussman and Miss Katherine Schaub, have suits against the Luminite Company of Newark. The actions are likely to be compromised out of court this week.

Dr. Arthur E. Rogers, surgical dentist, who discovered fresh symptons of poisoning, among Waterbury Clock Company workers, declared that the mere touching of radium frequently causes debilitating results.

Leonard Salerno Is Indicted In Tranquillo Case

Alleged To Have Shot Joe Tranquillo Near His Home On Evening Of March 25

SALERNO ESCAPED; NOT YET ARRESTED

Many True Bills Against Intoxicated Drivers Are Returned By Grand Jury

Leonard Salerno was indicted by the Lawrence county grand jury for the murder of Joseph Tranquillo in returns made today. Salerno is alleged to have shot Tranquillo on Sunday evening, March 25. Tranquillo died soon afterwards in the New Castle hospital, a bullet having entered his chest and penetrated his lung.

Tranquillo had been at the House of Savoia during the evening. He left with Charles Audino for his residence on Home street. Audino was bidding Tranquillo good night when Salerno came up, saying that he wanted to talk to Tranquillo. The latter is alleged to have told Salerno to go away, as he did not want to talk to him. The men had some words and Audino tried to pacify them.

Audino started home and Salerno walked away, going into the house, according to the story told by Audino. A few minutes afterwards Tranquillo came out of his house and started toward Salerno's home. Audino was some distance away when he heard two shots and running back found Tranquillo lying on the street, mortally wounded. Salerno fled immediately after the shooting and has not yet been apprehended. It is not known what differences had been between the man, that led to the shooting.

Other true bills were returned as follows:

Plant Sold By Sheriff Fails To Satisfy Mortgage

Suit Is Brought Here Against One Of Stockholders In Akron, O., Plant

Suit to recover $4,838.12 from C. Ed Smith, Jr., has been filed by The Guarantee Mortgage Company of Akron, O., use of W. A. Garver, at the prothonotary's office here. It is set forth that in November 1923 W. A. Garver, P. T. Guickion and C. Ed Smith, Jr., were stockholders in the Bahner Foundry and Furnace Company at Akron. They wished to borrow $35,000 on the plant from the Guarantee Mortgage Company.

The company would not loan that much on the property and asked for additional security. Garver and Guickion mortgaged their houses in Akron to furnish this additional security. Afterwards the plant on which the company held the $35,000 mortgage was sold by the sheriff for $24,900. At it did not meet the claim the mortgage called for the balance.

Garver is alleged to have disposed of his property at private sale and to have turned in $10,235.56 to the mortgage company. Guickion's property was sold by the sheriff and $3403.82 turned in. Including expenses the two had paid in $14,514.38. It is now claimed that as all were on the first mortgage given for the $35,000 that the share of each in the deficit between that amount and the property brought at sheriff sale is $4,838.12, the amount which Smith is asked to pay.

Library Circulation Shows Great Gain

Increase Of Nearly 91 Per Cent Shown Over May, 1927

An increase in circulation of 91 percent over May, 1927 is the report of Miss Alice M. Sterling librarian of the New Castle Public Library who states that the circulation for the past month has jumped to 16,641 volumes. The circulation for May 1927 was 8,701.

Much of the increase is caused by the South Side branch of the library it is stated. During May 5,949 books were withdrawn from the branch.

At the present time there are books in the Italian language at the branch says Miss Sterling and in a short time books in other languages will be added.

For the interest of adults of the South Side many magazines will be placed on the reading tables in the rear future. Among those that are ordered are the American, Colliers, Womans' Home Companion, Literary Digest, American Boy, Radio Broadcast, American Girl and the Saturday Evening Post.

Tuesday's circulation at the branch was 663 volumes.

MARATHON DANCERS CONTINUE GRIND AT WASHINGTON, PENNA.

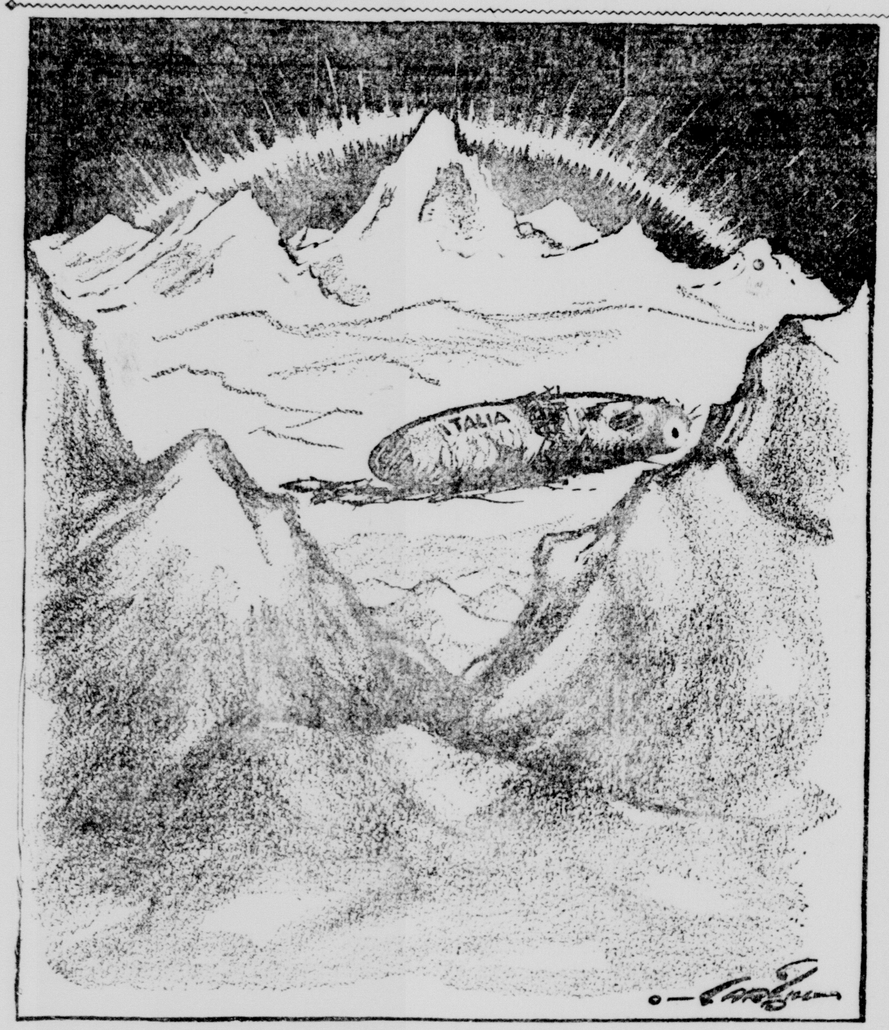
(International News Service)

WASHINGTON, Pa., June 6.—As the hours slowly pass, more and more couples pass out of the scene of the dance marathon here.

At the end of the first 48 hours of the dance only 14 couples remained on the floor while spectators began to doubt whether any would be able to finish and set a new record.

Tonight is to be known as Uniontown night and a large delegation is expected from there to witness the marathon. It was said that no attempt will be made to conduct the marathon beyond 12 o'clock Saturday night.

The Road to Rome



Oh Helen! Let Me Tell You

"You know Grace ——— that married "Dick" Nu-Wed, well I met her on the street the other day and she told me all about the wonderful trip they had and their suite is beautiful .. and you know how Grace always said they have the duckiest little Love Nest you ever want to see. Cozy living room—and their living room suite is beautiful—and you know how Grace always said she wanted her bedroom to look—well it's simply a dream and the cutiest kitchen with an all-white range, the kind you said, you were going to buy."

"Tell me Ruth, where did they get their furniture—for you know Dick don't make very much?"

"Why Grace said, they bought everything they have at Haney's—and she told me how wonderful they were and that they paid a small amount down and the balance in monthly payments, with over a year to pay in. She said, Dick wanted to wait a-while until they had a little more money—but when she told him that Haney's charged no extras for credit, why, he was in favor of buying at once—and Dick said, really, he was surprised at the low prices—and wonderful values. So Helen, I went over to see for myself. You know, my dear, these men are often wrong, but this is once Dick sure knew what he was talking about. Come on and let's go over now. I'd like to go back again."

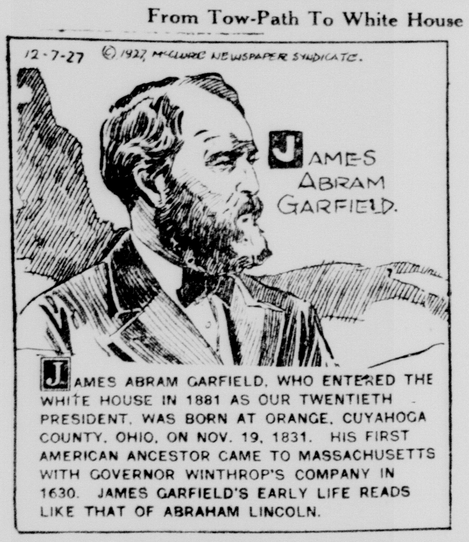
HIGH LIGHTS OF HISTORY

By J. Carroll Mansfield

From Tow-Path To White House



JAMES ABRAM GARFIELD, WHO ENTERED THE WHITE HOUSE IN 1881 AS OUR TWENTIETH PRESIDENT, WAS BORN AT ORANGE, CUYAHOGA COUNTY, OHIO, ON NOV. 19, 1831. HIS FIRST AMERICAN ANCESTOR CAME TO MASSACHUSETTS WITH GOVERNOR WINTHROP'S COMPANY IN 1630. JAMES GARFIELD'S EARLY LIFE READS LIKE THAT OF ABRAHAM LINCOLN.

JAMES'S FATHER MIGRATED TO NEWBURG, CUYAHOGA COUNTY, IN WHAT WAS THEN STILL SPOKEN OF AS THE "WILDERNESS". HERE HE BUILT A LOG HOUSE AND CLEARED THE LAND OF TIMBER FOR A FARM.

JAMES BEGAN ATTENDING THE DISTRICT SCHOOL WHEN HE WAS FOUR YEARS OLD. LATER, HE MADE HIS FIRST MONEY WORKING ON NEIGHBORING FARMS IN HIS SPARE TIME. AT SIXTEEN HE WENT TO CLEVELAND AND FOUND EMPLOYMENT ON THE CANAL, DRIVING THE HORSES THAT TOWED A BARGE PLYING BETWEEN BRIERHILL AND CLEVELAND. HIS WAGES WERE TEN DOLLARS A MONTH.

IT WAS NOT LONG BEFORE JAMES WAS PROMOTED TO THE POSITION OF STEERSMAN ON THE CANAL BOAT. HE WAS A THRIFTY BOY AND SAVED MOST OF THE MONEY HE MADE, BUT EXPOSURE IN ALL KINDS OF WEATHER BROUGHT ON AN ILLNESS, AND HIS SAVINGS WENT TO PAY FOR A DOCTOR'S SERVICES AND MEDICINE.

GRAYS PLAY CENTENNIALS HERE FRIDAY

"Cents" Have Not Lost Game Here

Colored Home Run King To Play Against New Castle Team

PLAY AT MASSILLON SATURDAY AFTERNOON

By CHARLES LANDOLF

Homestead Grays will play George Textor's fast New Castle club, leaders of the O. & P. league, here Friday evening at 6:15 o'clock daylight savings time. The game will be played at Centennial field.

The game will no doubt be a fast and interesting encounter as this will prove the supremacy between the two teams. New Castle will try to avenge the defeat handed them a few weeks ago at Massillon, O. New Castle will also try to keep the record of not having lost a tilt on the home soil this season. New Castle has defeated every team in the O. & P. league here and also the Grays. New Castle has won seven encounters here and out of this number they have won five by coming from behind in the latter part of the game. The Grays have only lost two games this season.

Regular Lineup.

The Grays will use their regular lineup, including Beckwith, the flashy shortstop who, it is believed, broke the major and semi-pro record last Saturday afternoon by smacking five home runs, one single, drew two walks and hit a long fly in nine times at bat against the all star Havana Cubans at Uniontown, Pa. By knocking five home runs on Saturday, Beckwhich has boosted his home run record to something like 24 for this season. A record breaking crowd is expected to attend the game.

New Castle's Card.

Following is the schedule of the locals for the remainder of this week and the following week: Tomorrow New Castle plays at Willard, O.; on Thursday New Castle travels to Freedom, Pa.; Friday the locals play the Homestead Grays here. Saturday New Castle furnishes attraction at Massillon, O., in an O. & P. league game against Akron. Sunday the locals will play their first game at Youngstown against the Beaver Falls Elks-Youngstown club in an O. & P. league encounter.

At Beaver Falls.

On the following week New Castle plays at Beaver Falls on Tuesday, at New Castle against the Beaver Falls club on Wednesday, Thursday they journey to Ellwood, Friday at Rochester and on a week Saturday Canton will play here. It will be noticed that the locals play the Beaver Falls club four games in eight days.

Baseball Games Are Rained Out

All games in the American section of the Twilight league of the New Castle Church league were rained out on Tuesday evening. The weatherman said rain and it didn't do anything else but rain.

Not only New Castle but almost the entire country was thoroughly washed the past few days. There was but one game in the major leagues on Tuesday.

CONGRATULATIONS!

Westminster Loses Eight Athletes Due To Graduation

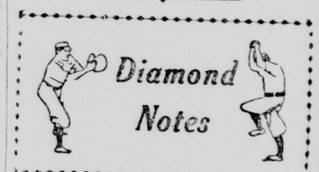
(Special To The News)

NEW WILMINGTON, Pa., June 6.—Graduation this afternoon will deprive Westminster athletic teams of the services of only eight men. In the graduating class is but one varsity football player, Howard Kelly, of New Castle. But one member of the basketball squad, Thomas McMeekin of Chicora, will be lost.

The greatest loss comes in track where Orvil Mirtz, star distance runner; Henry Bucher and Robert Bucher, weight men; and Leland Cooper, weight man, will be lost.

Captain Paul Gibson of the varsity tennis team and ex-captain Francis McDowell will also be graduated. Brooks Reed, a member of the swimming team, will also be lost to competition next year.

Although the services of these men will be missed, it can be seen that all athletic squads of the college will be practically the same next year as this, and with the additions of freshmen material should be able to maintain the fine record which was made this year.



The Olympic Midgets defeated the South Side Pirates in a fast game on the Clifton Flats field on Tuesday evening. The final score was 11 to 9. Ovos and Adams featured the game for the Olympics, with Miran the best for the Pirates.

The Dewberry's one of the fastest independent teams in the city and county would like to book games with all fast teams. So far this year the Dewberry's have defeated the Edenburg team of the Twilight League and also the West Side All-Stars. Twilight and Church League teams are asked to get in touch with the Dewberry's by calling 1989-J and asking for John, between 5 and 8 o'clock.

The Colored Star Juniors will have an important meeting at the Colored Y. W. C. A. on Elm street at eight o'clock on Thursday night. All members are asked to attend.

LEW FONSECA

Lew Fonseca cost the Cleveland Indians 50 grand when they got him from Newark, N. J.—but the buy was no mistake.

Though Lew looked fine at second base the spot he was first tried in by the Indians he has blossomed into a baseball beauty at first base now.

As a second sacker Lew whaled the sphere at a .311 pace and also led the keystoners of the American league in fielding.

When George Burns all but collapsed at first this year the Tribe slapped Lew into the breach and he has been performing since. He is leading the weak-hitting Indians with the stick.

The Quintessence Of Pitching By Feg Murray

Copyright, 1928, by Metropolitan Newspaper Service

When you get to be 43 years old, do you think you'll be playing baseball? Not by a jugful—eighteen holes of golf will probably more than satisfy your craving for athletics. Then how do you figure out old Jack Quinn—real name John Quinn. Picus—who won five of the first six games he pitched for Philadelphia this year?

July 5th should be a national holiday as well as Independence Day, for on that day was born this patriarch of pitchers, July 5, 1885, Hazleton, Pa. Paste that in your memory book. He started pitching in 1903 in the Penn State League. A long time ago, 1903. Roosevelt was President then, Jeffries heavyweight champion, Jack Dempsey seven years old, Bobby Jones couldn't walk, Helen Wills was not yet born, and Willie Heston was All-American half-back. Yet Old Jack Quinn, like Tennyson's famous book, "goes on forever."

Spit-ball pitchers are fast dying out, however. The moist ball artists are nearing the end of their slimy trail. With the recent release of Clarence Mitchell by the Phillies, only six saliva artists remain in the majors, not counting Allan Sothoron, now a coach with the St. Louis Cardinals. The others are "Red" Faber, Stanley Coveleskie Urban Shocker, Bill Doak, Burleigh Grimes, and Jack Quinn. There were seventeen twirlers who resorted to this tricky delivery eight years ago when the powers-that-be banned it from the league forever, as far as future pitchers were concerned.

And old Jack Quinn, of the Yankees, Braves, Baltimore Feds, White Sox, Red Sox, and Athletics, a relic of the past, may be expected to pitch his old spitter for many years to come.

He (a young lawyer)—"I'm taking up tennis."

She—"How high are you going to take it?"

He—"Oh, I guess I'll carry it to a higher court."

Tunney And Heeney May Fight July 26 At Yankee Stadium

Heavyweight Championship Bout Planned By Rickard For Night Of July 26

Tunney Favored To Defeat Australian Challenger; Expect Large Crowd

By DAVIS J. WALSH
Sports Editor International News Service

NEW YORK, June 6.—Tex Rickard plans to apprise the New York boxing commission tomorrow of his "plans" for the Tunney-Heeney heavyweight championship fight and, four days later, he will have another big story for release. He will tell us when and where the fight is to take place. The writer, for one, can hardly wait.

In fact, my impatience is such that I am about to fool Mr. Rickard. I won't wait. Be it known, therefore, that tomorrow he will tell the board just how many seats he has in mind at $45, $30, $16.50 and so on and, on Sunday, he will say that, after due deliberation, he has decided to hold the fight at the Yankee Stadium on the night of July 26.

Already Known.

The citizen who hasn't heard all of this before automatically wins the curveless fish hook, which only goes to show how devoutly Mr. Rickard is laboring to bring life to the dead.

"Are you hearing anything about the Tunney-Heeney fight?" An official of the Madison Square Garden asked a Broadway racketeer in the elevator today. The latter said "no" and then reconsidered with the air of one who wished to be fair about the thing.

"Yes, I am," said he, finally. "I hear them laughing at it."

At the same time, I wish to deny that I am claiming the fight is dying on its feet. Such a declaration not only is inaccurate but untrue. It has never been on its feet.

However, weep not for Mr. Rickard. The right fielder who forgot his sun glasses won't need your tears, either. He will have plenty of his own and the only reason I'm mentioning the matter is that he reminds me of Mr. Rickard, who is so different. Basing the contention on the current belief that they, meaning the Muggs, always turn out for world series and heavyweight championships, it was popularly estimated around the Garden today that Tunney and Heeney would gross somewhere in the neighborhood of a million dollars. If they do, Mr. Rickard will be out from under like an exposed chassis.

He, in fact, stands to win several hundred thousands under those conditions, with Tunney taking some $525,000 and Heeney what he can get, including a punch on the nose.

No Sympathy Needed.

No, Mr. Rickard never seems to be in immediate need of sympathy. He is the only promoter in the racket who can guarantee to finish in the dark ink year after year. I did hear once that Hardy Downing, of Salt Lake City, has made as much as a quarter of a million in the game but a winner like that is most exceptional. The only thing that keeps most of the boys in the field indefinitely is the inevitable "angel" who reads a few headlines and then runs out into the light of day looking for a promoter who might consent to accept money from strangers.

However, the original "angels" who supported Rickard soon lost their saintly aspect. He didn't need them, after his early successes here—except as a means of overcoming his natural aversion to using any but strictly impersonal money in his operations.

HERE AND THERE IN SPORTS' LAND

By ED. FRITZ

Some of the boys around the pugilistic rialto believe that Emmett Rocco will have extreme difficulty stowing away the old battler, Levinsky, when they meet in a 10-round bout at Akron, O., tonight. There are others who say that Levinsky will prove too smart for the Ellwood City slugger, and when the toll is taken at the end of the last round Levinsky will be among those present.

As Joe Glick and Mike Dundee are scheduled to battle at the Taylor bowl, Cleveland, tonight, the gate receipt record at Akron are not likely to fall. In fact, we're of the opinion that had Rocco stayed away from Levinsky and held off to show himself in the first fight at the Jolly bowl he would have done equally as good, financially, if not better. Glick and Dundee, junior lightweights, will draw a $15,000 "gate" at Cleveland.

Rain having prevented the Pittsburgh Pirates from cavorting during the past two days, they hope to get another start today by opening a series with the Braves. The Pirates took the only game of the series with Brooklyn. When Pittsburgh stacks against the Braves they will meet a rejuvenated outfit with Rogers Hornsby at the head of the aggregation, and it is predicted that there will be plenty of torment for Pittsburgh in the four games.

Christy Mathewson, the "Big Six" of the national pastime, was hailed in death yesterday by Judge Landis as the "man who made baseball the truly national game it is". The judge paid tribute to "Matty" at the presentation to Bucknell University of the Christy Mathewson memorial gateway to the memorial stadium at Lewisburg. Prominent baseball notables and alumni heard the famous jurist and baseball authority extol "Matty".

Helen Wills, winner of the French women's singles net championship, has stated at Paris that she and her fellow American, Elizabeth Ryan, will not defend their British championship in women's doubles at the Wimbledon tournament. Miss Wills will confine her participation to the women's singles and the mixed doubles in which she will be paired with Francis Hunter, second ranking American player.

A crowd of 500,000 today will witness the running of the historic Epsom derby. According to dispatches from Epsom, Eng., there is no limit to the enthusiasm aroused by each successive renewal of the most famous of all horse races, and today's promises to be as sensational as any in the 148 years it has been raced. The Earl of Derby himself owns the favorite for this years' classic in Fairway, a son of Phalaris-Scapa Flow. A victory for the peer, who is popular, should be held second in the public's estimation only to a victory for royalty, although this time King George has no entry in the derby.

WILL PRESENT PLAY AT WILLARD GRANGE

A play entitled "Clubbing A Husband," will be given Friday evening at the Willard Grange on the Frew Mill road. The play will be presented at 8 o'clock eastern standard time. Recently this same play was given under the auspices of the Ladies Missionary Society of the Madison Avenue Christian church, in the church by a cast of twelve ladies.

Personalities IN SPORT

HELEN WILLS

Miss Helen Wills, national women's tennis champion, is a resident of Berkeley, Cal.

Miss Wills' rise to the foremost rank of tennis was sensational. After startling the net world with her play as a child, she became a wizard with the racquet as she approached womanhood.

Miss Wills challenged, for the first time, in 1922, the reign of Mrs. Molla Bjurstedt Mallory, who had ruled a tennis queen of America, save for one interval, since 1915. Helen was beaten.

The next year, however, Helen overthrew Queen Molla and assumed the tennis throne, which she occupied until 1926, when an operation forced her to miss the national tourney. Helen returned last year, and again won the title, which she now holds.

Watching any club but the Yanks in the American league is apt to give a fellow a crick in the neck. He'd be looking down all the time.

The St. Louis club tried a new experiment this year. It traded and sold all the boys who knew how to play baseball.

The Browns opened up in an old game with a new deck. The result was as disappointing as it was expected.

The St. Louisans came from Missouri and had to be shown. They were—by the Yanks, Athletics, Indians, etc.

Only one thing has kept the Browns from winning a lot of pennants. There always happened to be another ball club between it and first place.

But St. Louisans aren't discouraged. Anything can happen in baseball. The Phillies once won a pennant.

Levinsky To Battle Rocco

Light-Heavyweights Carded For 12-Round Bout In Akron Ring

AKRON, Ohio, June 6.—There will be little weight advantage at the Armory tonight when Battling Levinsky of Philadelphia, and Emmett Rocco, Ellwood City, clash in a 10-round show here.

The two completed their training yesterday at Suey Welsh's gymnasium and appeared in tip-top condition.

Levinsky who lost his title as light-heavyweight champion to Gene Tunney two years ago is attempting a comeback.

Rocco is a tough fighter with a good punch and has won over Sandy Seifert and Jack McAuliffe.

One way to avoid being shocked by the profitable crookedness of a board chairman is to own stock in the company.

Half Million Attend Great English Derby

(BULLETIN)
(International News Service)
EPSOM—Felstead wins derby.

By CHARLES A. SMITH
International News Service Staff Correspondent

EPSOM, Eng., June 6.—The 143rd derby—the most famous horse race in the world—drew a record crowd of 500,000 persons, including hundreds of American tourists, to Epsom Downs today. Originally more than 25 thoroughbreds had been entered in this classic, but three were scratched.

The weather was dull this morning but the sun occasionally peeped through the clouds and gave hope that the gloom would be dispelled before the race began. The track was in perfect condition.

There was more than one betting favorite, but keen judges of horseflesh picked Lord Derby's Fairway as the most likely winner. The odds on Fairway were 11 to 4.

Two women stable owners this year sought the honor of being the owner of a derby winner. They were Mrs. Drummond, wife of Capt. George Drummond, banker, and Lady Richardson, wife of Sir Lewis Richardson, of South Africa.

Mrs. Drummond entered Gang Warily and engaged Steve Donoghue, one of the best jockey's on the British turf, to ride the colt. Lady Richardson entered Fern Cloof and retained Olan Cornelias as jockey.

In accordance with custom, members of the royal family came to Epsom to see the race. The royal party included King George and Queen Mary.

Is Worth Fortune

The race this year was worth $64,000 to the winning owner. The race was over the historic derby course—approximately one mile and one-half long. It was open to three year old colts carrying 126 pounds and fillies carrying 121 pounds.

Lord Derby was particularly anxious to win the classic this year. While his family founded the face it has never yet had a winning entry in the contest.

A gigantic sum was wagered upon the race and it was evident 24 hours ago that whole fortunes would change hands upon the outcome.

Fairway, 11 to 4; Flamingo, 6 to 1; Sunny Trace, 15 to 2; Ranjit Singh, 100 to 10; Gang Warily, 20 to 1; Bubbles Second, 18 to 1; Royal Minstrel, 18 to 1 and Black Watch 30 to 1.

The only American entry, Luvernan, owned by A. K. Macomber, was backed heavily.

Beginning early in the morning all roads leading to the course were filled with every kind of conveyance which runs on wheels.

Huge supplies of chickens, crabs, lobsters, oysters, caviar and other expensive delicacies were laid in by the caterers to satisfy the palates of the more aristocratic of the race goers.

The vendors stocked up thousands upon thousands of bottles of beer, ale, champagne, whiskey and wines to quench the thirst of the race patrons.

The famous Calcutta Derby Sweep, organized by the Calcutta, India, Racing Club, was expected this year to total about $3,000,000, the first prize winner getting approximately $800,000; the second $400,000 and the third, $200,000. In addition, the Sweepstake organized by the London Stock Exchange totaled the huge figure of $2,500,000, the winner of this "sweep" receiving $625,000... the second, $300,000, and the third, $120,000.

The record time for the race is two minutes 34 and 2-5 seconds, made by Call Boy last year.

KANSAS CITY, June 6.—The threat of "thousands of embattled farmers to march on Kansas City next week and demonstrate their dissatisfaction with things as are took on new life here today.

Elmer E. Billis of Chicago, who was selected by the agriculturist meeting in Chicago last week to direct the mass protests, has leased general headquarters for the farmers and he predicted to there would be at least 50,000" descend on Kansas City next week.

"This march of the farmers will be in no sense a 'Coxey's army' affair," said Billis. "The farmers are business men. They will drive their own automobiles to Kansas City to make an orderly protest against being left out on the protection scheme arranged for big industries.

"This demonstration will be one of the most impressive events in American political history."

A building has been rented for general headquarters. It probably will be thrown open Friday when Gov. Adam McMullen of Nebraska, one of the agrarian leaders, is due to arrive.

HEAVY RAINFALL CAUSES WASHOUTS

Reeves Force To Repair Streets As Soon As Rain Ceases To Fall

Councilman Clayton H. Reeves today stated that the rainfall which has descended for more than 48 hours had caused several washouts in various sections and as soon as the rain ceases the street employes will repair the streets affected.

Greenwood Avenue Being Viewed Today

Although rain descended intermittently the downfall did not prevent city councilmen and Mayor Gillespie from viewing Greenwood avenue today. The avenue is to be graded and paved and two houses near the P-O railway are to be removed.

Pittsburgh District Ready For Battle

Plans Outlined To Combat Reduced Rate Advantage Of Illinois District

(International News Service)

PITTSBURGH, June 6.—The line of attack to be followed by steel companies of Pittsburgh and adjacent districts in fighting the reduced freight rates recently installed by the Illinois Central railroad from Chicago to New Orleans for transhipment through the Panama canal to the Pacific coast is today set.

The Pennsylvania, New York Central and the Baltimore & Ohio railroads will be appealed to for similar rates to restore the competitive bases that prevailed before the action of the Illinois Central in lowering its rates, it was announced after yesterday's conference of 49 traffic representatives of eastern shippers, including the large steel companies of Pittsburgh and adjacent districts.

A committee was appointed at the conference to ask eastern carriers for a joint meeting to be held some time next week at which it is hoped that one of several alternate plans for obtaining relaitve rates may be adopted.

Should negotiations with the eastern carriers fail, it is believed a complaint will be filed with the interstate commerce commission against the present Pittsburgh to Baltimore rates which are at present the same as the new rate of the Illinois Central for shipment from Chicago to New Orleans.

It was said here that the Traffic Executives association of the eastern territory will meet in New York tomorrow to consider local shippers' request for a joint conference.

REEVES TO OPEN NORTH JEFFERSON

Will Remove Curb And Barricade At Jefferson And Wilmington

North Jefferson street, leading north from Wilmington avenue, is to be opened for traffic, according to Councilman Clayton Reeves, commissioner of the department of streets.

Employes of the city will cut down the curb, make an entrance to the street and remove the barricade.

It is also probable that a barricade will be erected along the east side of the street, near the hollow.

New Roller Has Arrived In City

Will Be Employed By City To Keep Dirt Streets In Good Shape

Councilman Clayton Reeves announced today that the roller purchased recently by the city from the Gallon Iron Works & Manufacturing Company has arrived in the city and is housed in the municipal 'toolhouse', Croton avenue. The roller which has a planer will be employed to keep dirt streets in shape this summer.

Detroit News Is Raided By Thugs Payroll Nabbed

(International News Service)

DETROIT, June 6—Five thugs with sawed off shotguns held up the Detroit News today, shot a policeman who interfered and escaped with a payroll, while a second patrolman emptied his gun after them, according to a report to the police.

Three men remained on guard, while two held up the custodian of the cash.

DRUNKEN MOTORISTS GIVEN HEAVY FINES

(International News Service)

MERCER, Pa., June 6.—It costs $200 and two months in jail here to drive while intoxicated. Judge J. A. McLaughry imposed that sentence on five drivers who pleaded guilty.

COUNCIL VIEWS FIRE STATION

Almost Ready For Transfer Of Equipment From East Street

Members of city council today made an inspection of the South Jefferson street fire station which is practically complete.

The building was erected by Contractor Vaughn and the plans were prepared by J. A. Altschuler, architect.

It is regarded as one of the most model fire houses in this section.

The new house will contain the equipment now at the East street station.

Balloonist Is Given Release From Hospital

(International News Service)

GREENSBURG, Pa., June 6—Ward T. Van Orman, pilot, whose leg was broken when his balloon was struck by lightning and forced down near here during the national elimination balloon races held on Memorial Day, has been removed from the Westmoreland hospital to his home in Akron, it was learned today. J. F. Cooper, another balloonist who was burned by lightning, is still confined in the hospital.

Harry K. Thaw Is Touring France

(International News Service)

CHERBOURG, France, June 6.—Harry K. Thaw, of Pittsburgh and New York, whose trial for the murder of Stanford White, was one of the most sensational in the history of America, arrived here today enroute to London and Paris for a "quiet visit."

"You are mistaken if you think I came to Europe for a gay time," Thaw told the International News Service correspondent. "As a matter of fact my mother is very ill and I am obliged to return home sooner than I had expected. I expect to sail on July 9th."

"Who Won The War" Cause Of Murder

(International News Service)

DETROIT, Mich., June 6.—A Russian and a Canadian, both veterans of the World War quarreled over the parts played by their respective armies. The Russian slugged the other over the head with a gas pipe injuring him fatally.

The story of the slaying was told today by Louis Dultz, who came to the United States five years ago from Russia.

The victim was William Reynolds, Windsor, whose body was found in the street.

"I didn't know I killed him" Dultz said. "We got mad, arguing about the war and I hit him and ran."

YOUTH RESCUED AS BOAT UPSETS

(International News Service)

JOHNSTOWN, Pa., June 6.—Billy Alter, 10, is back home today after a tempestuous voyage on Stoneycreek river. His home-made flat-bottomed boat sprung a leak and Billy, not being able to swim, stayed aboard. His call for help was heard by trainmen on the Baltimore & Ohio railroad. They threw out a life line and rescued the boy.

Carlton Leading In Florida Vote For Governorship

(International News Service)

JACKSONVILLE, Fla., June 6—Doyle Carlton of Tampa, today continued his lead in the five cornered race for Governor according to straggling returns.

The long and complicated ballot may require several days to tabulate.

Ex-Governor Sidney J. Catts and F. A. Hathaway, were running close for second place.

U. S. Senator Park Trammell was holding a substantial lead over Gov. John W. Martin for the senate post.

Mrs. Ruth Bryan Owen, daughter of the late Wm. Jenning Bryan, was leading Representative W. J. Sewrs by approximately 1,000 votes for congress.

SPORTS DONE BROWN

By NORMAN E. BROWN
Staff Writer for Central Press and New Castle News.

The unconditional release of Clarence Mitchell, southpaw hurler, by the Phillies recently, perhaps marks the close of his major league career.

Mitchell never reached the level of the greatest southpaws of the game but has been given due credit for being at times a near-great pitcher. He has been handicapped at least half of his career by being with a hopelessly demoralized ball club—with which no pitcher could earn the credit exactly due him.

However, Mitchell bears the unusual if not proud distinction of being the only man in baseball to hit into an unassisted triple play in the world's series—to put the reverse English on that thrilling feat.

It was Mitchell who, in the fifth game of the 1920 world's series between Brooklyn and Cleveland, drove the line drive which Bill Wambsganns, Cleveland second baseman, speared and turned into a three-ply killing unaided.

Pete Kilduff, second baseman of the Dodgers, had started the inning with a single. Otto Miller, catcher, followed with a short hit. Kilduff stopping at second. Mitchel, who had relieved Grimes earlier in the game, was next at bat. Because Mitchell had always ranked as a dangerous hitter no hesitancy was felt by Manager Robinson in permitting the pitcher to bat for himself. Jim Bagby, pitching for the Indians, happened to toss one where Mitchell liked it. The southpaw drove a terrific liner toward second base.

It seemed to be over the heads of the infield, but Wambsganns dashed over to the bag, leaped in the air and speared it. Mitchell was out, of course. His feet on the ground again, Wamby stepped on second and retired Kilduff, who had turned back from his dash toward third too late. Miller, too, had decided the drive was a sure hit and was almost to second as Wamby touched the base to make the second out. Leaping across the bag Wamby dashed after Miller and tagged him before he could scuttle even part way back to first.

The play killed a rally that bid fair for a moment to wipe out at least part of the seven-run lead the Cleveland club had taken.

Mitchell broke into professional baseball with Franklin in the Nebraska league in 1909. He was drafted by Detroit but never broke into the game with that team. After playing with Red Cloud, Saginaw, Providence and Denver he joined the Reds in 1916. In two seasons there he won a total of 20 games and lost 25, whereupon Uncle Robbie, master molder of pitchers, acquired him from the Reds and kept him five years, mostly as a relief pitcher. Then Mitchell moved over to the Phillies in exchange for Pitcher George Smith.

An old slant on Mitchell's career is the fact that in no one season of the 12 he spent in the big show did he turn in more than 11 victories.

Last year he won six and lost three games for the Phils, breaking into 15 games and pitching 95 innings.

Legal Notices

To John E. Houk, Notice

You are hereby notified that your wife, Mae Bruce Houk, has filed a bill in equity against you in the Court of Common Pleas of Lawrence County, Pennsylvania, at No. 3 June Term, 1928, Sitting in Equity, in which she prays for the cancellation of a deed executed to you, for an accounting of personal property removed and secreted by you and for an order upon you to contribute to her maintenance and support. In this case the court has made the following order:

Now, this 5th day of June, A. D. 1928, it appearing to the satisfaction of the court, by affidavit, that the defendant, John E. Houk, cannot, upon diligent inquiry, be found so as to be personally served with any process in this case, it is ordered, adjudged and decreed that the defendant, John E. Houk, is hereby notified and required, within fifteen days after service upon him, to enter a written appearance to the above stated number and term in the office of the Prothonotary of the Court of Common Pleas of Lawrence County, Pennsylvania, specifying therein a person and place, within said county, where papers, process and notices may be served upon him, and within thirty days after such service, to make a full and complete answer, under oath, to each and every of the averments of the bill in equity filed in this case. If he fails in either respect, the bill may be taken pro confesso and a decree made against him in his absence, and the said John E. Houk, defendant, is directed to answer to the injunction heretofore granted in this case, within five days from the date of such service, and it is further ordered, adjudged and decreed that notice shall be given to the said John E. Houk, by advertising a notice in the form attached to this motion, once a week for two weeks, in the New Castle News, a newspaper of general circulation in and for the County of Lawrence.

N. Y. STOCKS

(International News Service)

NEW YORK, June 6.—Strength and activity of the packing stocks, the motors and a few of the industrials and specialties featured the early trading in the stock market today. Assurances of the plenteous supply of money for speculative purposes around 6½ to 7 per cent, improvement in railroad traffic, retail business and gasoline statistical position, together with the tenacity of big and little traders in relation to their favorite stocks stimulated renewed buying of stocks in all sections of the market.

Unless the Federal Reserve Board has other measures to curb stock speculation, it appears that its efforts will have little effect on the market. The public is attracted by the spectacle of rising prices, and the pools have the ability to make their stocks move at will, particularly when the floating supply is small. Short selling has become so dangerous that the volume is gradually decreasing, and thus the "cushion" which usually prevents a sharp decline in stock prices has been removed.

Call money renewed at 6½ per cent, with adequate supplies reported. Armour and Cudahy headed the specialties, all stocks reaching the highest price level of the year, the latter advancing two points. Packard Motors, Nash and Hupp continued their spectacular market course, accompanied by new merger rumors. U. S. Steel led a moderate rally in that section of the market, and gained nearly 2 points. Oils were steady with Standard of New Jersey in the lead. Rails were on the inactive list, though New York Central was in good demand at 180.

Modern Instruments Aid To Safe Flying Long Flights Show

(International News Service)

CLEVELAND, June 6.—Assistant Secretary of War F. T. Davison recently in an address before the Army and Navy Club No. 54 here stressed the different instruments being perfected to make flying as safe as any other kind of transportation. He also told of the rapid strides made by American aviators.

"The aviators greatest enemy is fog," Davison explained, "and instruments will be perfected in the near future to defeat it.

"The radio beacon has been developed to keep aviators on a straight line over long distances regardless of wind drifts or other atmospheric conditions. The Hawaiian flight demonstrated the practicability of this invention.

"The British have solved the problem of fixing the exact position of the field by electric cable strung around it at certain intervals. The only problem remaining is that of ascertaining exact altitude. Inventors are working on a capacity altimeter which will soon solve that."

Davison declared that the American people are becoming more "air-minded day by day."

"During the past year" Davison continued "there hs been an extraordinary change in the public attitude toward flying.

"We have thought America far behind nations in flying until one morning we awoke to find Col. Charles Lindbergh had spanned the Atlantic ocean in his 'Spirit of St. Louis.' We thought we had achieved supremacy of the air overnight. However it took years of development to acquire this great feat and other important flights credited to American pilots.

"Commercial aviation is already here to stay and in time of national military authorities will thousands of aviators to draw from who will need little training for service.

Sale Of Blood For Transfusions Is Big Business In Vienna

(International News Service)

BERLIN, June 6.—Competition in the sale of human blood has become so keen in Vienna that the price has dropped to 50 Austrian shillings a liter.

This blood is used in blood transfusions. These have become so common in medical practice in that city that a regular trade has developed and quite a number of people live solely from the sale of their blood.

Many of them have been bled 12 to 14 times; the record is 16 times.

The Eiselsberg clinic is the distribution center of the "bleeders"; from there they are sent to the various hospitals as needed.

The "bleeding" trade is, of course, the last refuge of the impoverished. After about 14 bleedings, however, they find themselves "without blood and without money," and the constant bleeding has made them incapable of heavy manual labor for life.

The names of the patients whose lives are often saved by the blood transfusions are kept secret from the "bleeders" in order to prevent later money requests. Personal gratitude is therefore unable to help them.

Recently, the "bleeders" tried to organize a union in order to raise the price of their blood, but the effort failed and the "bleeder's" trade is therefore still run on the open shop principle.

Protecting in China

Command of all foreign troops in Peking, China, may fall on Lieutenant Colonel Thomas Holcomb, above, of the U. S. marines, who is senior officer at the foreign legations there. In the event of trouble arising from the advance of Nationalists on the Chinese capital he would command approximately 1,600 men of mixed nationalities.

College Athletics On Big Scale Are Highly Expensive

(International News Service)

NEW HAVEN, Conn., June 6.—The cost of college athletics on a large scale is indicated by the Yale Athletic association which has reported some of the major items of operating costs here.

Coaches take the sum of $90,000 a year in salaries, uniforms and other equipment for teams comes to $31,000 annually, and Yale's trips to meet other college teams out-of-town cost $47,000—including fares and hotel bills, each season.

To transport students athletes from the gymnasium or campus to the athletic fields and to the boat houses at Derby and on New Haven harbor takes $28,000 a year.

Yale boasts the finest college athletic plant existant. To maintain that plant takes $85,000 from the association coffers each year. To add to the playing fields the association spent $20,000 for land and another $20,000 to put the land into condition.

A new stadium for the baseball field just put into use, cost $210,000, while new stands for the track field cost $3,000.

The athletic association has spent $4,000, this spring, to put in additional tennis courts and proposes to spend $15,000 more soon.

Poster Contest For 1933 World's Fair Offers Big Prizes

(International News Service)

CHICAGO, June 6.—An International Poster Contest for the Chicago World's Fair, to be held here in 1933, was announced today by Chauncey McCormick, the chairman of the contest committee of the fair association.

Prizes totalling $4,500 will be awarded winners in the contest which will be open to professional and amateur talent throughout the world, according to McCormick's announcement.

All posters, McCormick said, must be submitted to the world's Fair Committee by September 1, 1928. Awards will be announced "not later than January 1, 1929."

Artists and designers from all parts of the world are expected to send in posters competing in the contest.

First prize will be $1,500, second prize $500, third prize $250, fourth prize $150 and fifth prize $100. Another $1,500 will be awarded to competing artists residing outside the United States, should the committee see fit, otherwise that amount will augment the regular prizes, at the judgment of the committee.

Specific details of the contest may be had, McCormick said, by application to the World's Fair committee at Chicago.

THE OLD HOME TOWN — Stanley

ETTA KETT — THE "LIE-UN" TAMER! — BY PAUL ROBINSO

Roaming Round With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

Old Man Webster, who spent considerable time writing a book which we now know as the dictionary, describes courage as "that quality of mind which enables one to encounter danger or difficulty with firmness or without fear or fainting of heart."

It's an elusive quality, courage, something we all think we have, but which is not commonly demonstrated. Occasionally one sees an example of it, but the person demonstrating never imagines it as courage.

Saw one of these examples last night. Some youngsters on Laurel avenue thought they saw a burglar in a grocery store. The police were called and arriving found the store and home above it locked up, the family away.

It seemed uncalled for to break a door and there was a transom open above the door, but large enough to accommodate only a small person. Understand there was supposed to be a burglar inside, a dangerous criminal perhaps. The space was too small for a policeman to crawl through and open the door, and a young lad about ten years of age volunteered to go through.

Without any fuss or ado he crawled up, dropped through the opening and opened the door for the officers. The burglar was gone, but nobody knew it then. For all that youngster knew he might have been in there with a gun or a club. And yet he volunteered with never a sign of hesitation.

To my mind that was courage for an imaginary foe is just as dangerous, up to the point of actual combat, as a very real one. After all most danger is imaginary. Who was it said "I am an old man, and have had many troubles, most of which never happened".

This colyum does not presume to tell city or county authorities what to do, nor does it pretend to be a monitor, seeking out defects to be remedied.

It does pass on for what they are worth, any suggestions that may be of service to the authorities or to the public, but in the passing of them on, nothing is added. Two suggestions were made yesterday, both of which concern possible accident hazards.

Number one is the West Washington street bridge. A good citizen of the sixth ward complained that the footpath on the bridge was as full of holes as a Swiss cheese, and that the county commissioners really should repair them.

Number two concerns the iron gratings in the sidewalks on Washington street. An insurance man said that in the past few weeks he had had three accident claims arising out of women's heels slipping through the gratings and injuring them. All three had been referred to the city. There seems to be little need for these old fashioned iron gratings and most of them have been eliminated. The insurance man suggests that the rest of them be eliminated.

To repeat, these suggestions are merely passed on. Public officials have plenty to do without this colyum getting out more. If it can be of assistance, fine, but it is not being conducted as a vehicle of criticism.

Once again Class Day is over and tonight is the windup, the commencement exercises. And every time I go to a commencement, which is at least once a year, I always wonder what the class will look like 10, 15 or 20 years later. How many of the boys will be professional men, how many business men, how many craftsmen. How many of them will live up to the high ideals that permeate a commencement, and how many will have proven the faith of their parents. If they could just keep a modicum of those ideals as they go on farther.

Will Welcome Parents At Boy Scout Camp

Parents will be welcome at Camp Phillips, the Lawrence county Boy Scout camp Wednesday afternoons, each evening, and all Sundays, avers Scout Executive J. Lee Calahan, but he also cautions the parents and friends not to bring sweets directly to the boys. These should be left at the dining hall, where they will be served to the boys at meal time.

The Lawrence County Council and the scouts have a reputation all over the United States for their efficiency in camping standards, and this success has been made possible by the splendid cooperation of parents and scout leaders in endeavoring loyally to uphold the organization.

Nothing within reason will be left undone to make this year's camp the best possible, concludes Mr. Calahan. An expert adult staff has been carefully selected and will supervise all the training activities of the camp. If any particular boy needs careful attention as to personal problems, the staff will hold it in all confidence and endeavor to help.

Further information on the camp can be had at Boy Scout headquarters, the Greer Building.

The director of this year's camp will be LeRoi Norton, who at the present time is employed by the New Castle school district as physical director over 862 boys. He himself is an eagle scout, and has been a member of the organization since he was twelve years of age; he understands the problems and temptations of boys and knows how to build a program to solve them.

Mr. Norton sees that all boys are given a fair, square deal and are encouraged to learn to keep themselves healthy and happy at all times.

The policy of the camp will be to avoid iron clad rules, but there are a few restrictions which must be obeyed to the letter.

First, swimming will be permitted only at specified times, with competent men in charge.

Second, no scout is permitted to leave the camp without the permission of the camp director, and he is not permitted to go alone.

Third, boating is not permitted except at times when the life guards are on duty.

Fourth, no green timber shall be cut or marred on the camp site except by the direction of proper members of the senior staff.
